Hello city council, my name is Gavin McCourt. Ive been a Missoula resident for 27 years, live in Ward 3 and have also emailed my city council members about these issues. After recently seeing the facebook posts and Missoulian article about an alleged assault on a Black man by an armed militia at a recent Black Lives Matter protest at the courthouse, I would like to know exactly what steps the city of Missoula is taking to address the systematic racism in our political, policing and social systems. Are these men being charged with a crime? Who are these apparently dangerous men and how are their actions in any way legally protected? Also, why is our mayor proposing $250,000 in TIF towards police showers and lockers when theres clearly a shortage of mental health and housing services in our community? Please let me know our city councils clear stances on these question. Thank you.
