The whole purpose of passing the ordinance originally, in my opinion was to keep out other "non-approved" by the "New Party" more qualified Applicants for executive level Positions. Fire and Police were just add to hide that fact.
I was there during the discussions, and none of the reasons made much sense then. As I'm sure none of them will be repeated meaningfully tonight either. It will be just "things are different now, we have to undue now, what we had to do then. Dave S. was on the Council at that time.
