Hello,
My family used to live in Missoula. We moved about 30 minutes away but have continued to shop there for many years for everything from food to clothing to household appliances, automobiles and more.
Because of the decisions regarding masks made by the county health department and city Council we are shopping there less and less. We did go into town for a little while today and stopped at a restaurant to eat. They wanted us to wear masks from the door to the table 10 feet away. We refused and we walked out. Trying to make people wear masks from the door to the table makes absolutely no sense. Trying to force people to wear masks and hardware stores, big box stores, gas stations and convenience stores etc...is overstepping your authority.
Please back off and let people be in charge of their own health. When do you start treating people that you work for like adults again?
You are hurting your constituents. You are harming local businesses. Those of us who live outside of Missoula have other places we can go that don't treat us this way.
Cloth masks are ineffective - they are germ factories that cause illnesses, rashes, headaches, cause shortness of breath. & anxiety.
Time to do the right thing by the people you. Step out of the way and let us start living our lives again.
