I would like to talk to someone about this Mental ban. This has SERIOUS repercussions that I believe have NOT been considered. And if you are banning all flavored tobacco, what about something that ACTUALLY hurts our children like BANNING ALL FLAVORED ALCOHOL!!! That is WAY more serious that a cigarette! The jobs that will be lost because if the massive loss in sales is gonna be ridiculous and something you HAVE NOT considered. If someone could please get back to me I would really appreciate it. Thank you.
