I know that some of you are ready to vote "yes" to City ownership of Mount Dean Stone without my encouragement, so I'm writing mainly to add support, and also of course to encourage any hesitant council members to add this wonderful property to Missoula's open space land. One of the great features, as you know, is that not only will it preserve land for wildlife but it will serve as a connector of public lands, trails, and conservation easements from Pattee Canyon to Miller Creek. Thank you. Ethel McDonald, Ward 4.
