Good morning!

My husband and I are avid runners in town. We love the access to Missoula's trail system and even considered this access as one of the more important items when purchasing our home last year. Hiking and trail running are part of our daily routine and truly make our lives better. We are so lucky to live in Missoula with such great access and are in full support of having more trails on city land, specifically in support of the High, Wide and Handsome trail.

Please feel free to contact me if needed.

Thanks!
Alex Drayton
