Hi all,

FYI, I'll be requesting this incident/police report from the event documented in the video below.

I'll let you all know what I find after the city kicks and drags its feet to produce this info and county tries to find the police/911 traffic. Then you all can sit on your hands.

As of yet Sheri Odlin and the whole county 911 department cannot locate the call from the 1/15/2020 MPD officer involved shooting in the Hollywood trailer park... I'm sure it didn't help Sheri that MPD intentionally gave me the wrong incident report number, but is it really so confusing/hard to locate this event?... you'd think that type of incident (where MPD kills members of the public) goes in a special archive?

Unless it just happened to be deleted(whoops)

That's that good ol' Missoula transparency we the public are getting to know all too well!

cheers!

Have a great weekend!

Regards,

-Matts Larson
