Hi all,

I'm sure with ~2% MPD being non-white and is living in a 95% white area this type of thing is only in "bigger cities.."

I mean you brought in ol' iron cross/triple (burning?) cross aka jaeson d. White to make changes lol... meanwhile we are not even allowed to know the officers name who shot and killed a community member (word is it's a female officer).

Don't worry, we're all watching in horror while January 17th approaches.

More hand sitting and meaningless public statements from (human chattel masters) seems like the right thing for you all to endorse.

what a sellout group of wanna be elitist we have representing us in Missoula city council these days! What a majority of Utter trash that needs to be thrown away. Next election cycle I guess.

There's more transparency currently in the water that fills the Berkeley Pit than Missoula city government.

You all should be ashamed of yourselves... you all should have another drink on the backs of the tax payers while you're at it you Buffoons. Drink up!

Fill your greasy pockets on the tax payers dime while you can little piggies!

Article:
Some Black officers say departments ignored their white colleagues' radicalization
At least 28 off-duty law enforcement officers joined Trump in Washington, DC, last week to call for the election to be overturned. "A lot of these officers were obsessed with him," one longtime cop said.
