Good morning,

City and County staff have assembled the following list of Planning Board members' occupations to assist in our deliberation today.

Gathering address data was not straightforward and would have likely required contacting individual members or finding original unredacted applications. Given that geographic distribution is not a qualification for Planning Board as it is for other boards and commissions (e.g., Historic Preservation Commission), I did not ask staff to pursue that request.

Many thanks to Lindsey Romaniello at Missoula County for pulling this together!

Best,
Jordan
