Congratulations to the Mayor, Gwen Jones, Jordan Hess, Bryan von Lossberg and others on the City Council for proposing the Transgender Resulotion that defends the rights and privacy of ALL Missoula youth.

It is abhorrent that many of this year's state legislators and the governor of Montana felt it necessary to use the power granted to them by the citizens of Montana to draft legislation that ultimately harms the people of Montana, in particular vulnerable youth. These actions fly in the face of the state constitution, and are contrary to basic human decency.

Thank you to the City Council for bringing this resolution forward, and for your efforts to treat all citizens of Missoula with dignity and respect.
