Your liberalism, sense of entitlement due to your positions, and radical stances seemingly have no bounds!

This Justice, Equity, Diversity and Inclusion resolution that you are proposing is ridiculous! The fact that you hired three people for this using Taxpayers' money is NOT right.

You do whatever you want with your liberal majority and spend us into debt that will take many years, if ever, to be repaid. This is done in a sneaky, under the table manner. Just three examples:

1-The purchase of the Water Company- The debt is completely out of hand.

2-The hotel for the homeless. A complete waste of taxpayers' money!

3-The Outrageous costs of the Homeless camp south of town.

Do you ever stop and Consider this?: If you or I ran our household finances, as you are doing for the City and County, what would happen to us? Our homes would be foreclosed, we would be bankrupt. We do not get to pass this on to others (Taxpayers). We do not get to simply Print more money!

I am all for treating people how I would like to be treated. In addition, I realize my views might be different others, but if I disagree, I should not get attacked for having different views.

I have worked very hard in extremely stressful jobs in my career and I am now retired. I do NOT believe in any way that I should support people who CHOOSE NOT to work or who have different ideas that are counter to my beliefs..

Missoula has changed incredibly over the years and NOT for the better. I have heard this comment from so many.
