I'm just sending this email to address my concern with the people we are allowing to build and expand our city of Missoula. Specifically this "Aaron Wags" gentleman.

I've lived in Missoula my whole life and I have grown up witnessing change, and I'm not against it. It is inevitable, but this Aaron figure is insulting and threatening to fight people who are addressing concerns and issues via social media.

I would hate to see this figure take over Missoula "one block at a time" as he put it, if he can't have a mature interaction with any of the locals.
