Subject: Comment on sidewalks
Date: Thursday, April 7, 2022 1:18:34 PM

Hey, I wanted to comment on sidewalks. Sidewalks are the most democratic form of transportation infrastructure followed by bicycle lanes. It is ethically wrong to favor spending money on road projects and not spend on sidewalks. The expectation of residents paying for the sidewalks in front of their homes is as ridiculous as charging them to repair potholes in front of their houses. I know that this will be ridiculously expensive. However, when viewed in the light of amenities projects where we spend money on things as ridiculous as a $25K dog statue the mayor and council can do a better job of spending the people's money.
Thank you.
