We Need Your Input!

Missoula's Business Climate Survey

The Missoula Economic Partnership (MEP) has engaged Garner Economics LLC, an economic development strategy and location advisory firm, to solicit your help to rethink and update the area's targeted industry strategy. Garner Economics will recommend ways MEP can better market the region to business sectors that are a good "fit" for the Missoula region (city and county) and will suggest methods for enhancing the area's business climate to better appeal to those business targets.

This survey is a vital part of the process - it solicits input on the current state of

economic development in the area from a business perspective. Your feedback is essential as we look to leverage and enhance MEP's economic development activities.

The survey should take no more than fifteen minutes to complete. For your responses to be included in the analysis, please submit your survey no later than 5:00 PM MT on Wednesday, April 25, 2018.

Your participation is voluntary, and survey responses will be kept strictly confidential. Garner Economics will compile the data from the survey and will only report the results in aggregate. Please be open and honest in your responses. Click the link below to access and complete the survey.

COMPLETE SURVEY

Thank you again for your time and participation!
Missoula Economic Partnership | Garner Economics, LLC
