Dear City Council,

I am a citizen who has been actively involved in learning about housing in Missoula and in solidarity with Common Good Missoula I am writing to ask you to incorporate our consensus requests into the Housing Trust Fund resolution:

- Establish Housing Trust Fund to be included in 2021 budget
- Establish oversight committee with decision making power including good citizen representation: BIPOC representation and 50% representation by cost burdened renters including people with disabilities, history of incarceration, vouchers, labor representation and eventually renters living in HTF housing.
- Housing as a human right Commit to an anti-racism frame for HTF, committee, and funding
- Ensure broad parameters that don't exclude any funding mechanisms.
- Commitment to move toward more funding from City in the future

Sincerely,
Thalia Gustina
