For sake of full transparency this matter has also been escalated to the Montana State DOJ. The longer this matter is allowed to continue and escalate, along with the continued threats and harassment I continue to receive that shows every sign of continuing (as it has for over 5 years), I will take further serious legal action. Just as I and my family continue to suffer, I will not allow this matter to be ignored or swept under the rug. It would behoove all of your organizations to pay close attention, investigate this matter in deep and serious detail, before it becomes a much larger legal issue with a much wider public profile. Thank you in advance for your time and attention in this matter.
Sincerely,
Elvis R Nuno

> For sake of complete transparency this is the initial response from Mr McDermott that is not only insulting, but dismissive, and shows a complete unwillingness to provide assistance and accountability regarding a police department that has gone so far as to pull a gun on me when simply trying to report crimes of harassment and death threats. This only further proves the point that our law enforcement is unaccountable, obviously unwilling to “police themselves” (which it is above and beyond obvious common sense that they have every motivation *not* to do so). Someone, in one of your organizations must step in and take action to see this matter addressed before it further escalates and puts me or my family in any further danger.

>> Being a resident of the city of Missoula I am writing to demand that as members of our law enforcement and prosecutorial organization you adopt a policies that prioritizes community well-being and redirects attention away from the police, and to the people they are sworn to protect.
>> Many Montanans may be tempted to think the unique nature of such a vast, yet sparsely-populated state minimizes the likelihood of police brutality in our small city communities. However, as reported by the Billings Gazette last year, Montana ranked ninth in killings by police per capita. In 2017, the Great Falls Tribune reported Montana police killings reached a total higher than the previous six years. These figures are alarming, but don’t tell the full story. Under Montana Code § 2-6-102 and Article II, Section 10 of the Montana Constitution, police disciplinary records are exempt from disclosure if there is an "individual privacy interest that clearly exceeds the merits of public disclosure." Montana police forces operate within a culture of impunity, and as the members of the communities they are supposed to be protecting, we can’t even begin to grasp the scope of their violence. These are all experiences I have personally experienced.
>> We are in the midst of widespread upheaval over the systemic violence of policing.

Empty gestures and suggestions of “reform” are inadequate and unacceptable. I am demanding that real change be made to the way this city allocates its resources. Support for communities in need is necessary now, more than ever. I am demanding that the City Council meaningfully defund the Missoula Police Department. I join the calls of those across the country to defund the police. I am demanding a budget that adequately and effectively meets the needs of at-risk Missoula residents during this trying and uncertain time. I am demanding steps be taken that supports community wellbeing, rather than empowering the police forces that tear them apart, as the life of me and my family has been torn apart.

I am again attaching my complaint, which is a mere synopsis of what me and my family has experienced, and posses a full paper trail behind every claim, and evidence of further abusive acts of power, intimidation, extreme escalation of weaponizing the legal system against me without the slightest probable cause (or otherwise fabricating probable cause). My family and I will not allow these matters to be swept under the rug, and will take every action to see that the two individuals are held accountable, and see to it that the threat of further retaliation is completely put to an end. As generational upstanding and prominent members of the Missoula community we will not live in fear of these people and Missoula PD.

Thank you for your time.

Sincerely,

Elvis R Nuno
