---

Eventhough I do not smoke or use tobacco products and i think that underage usage is a problem, I am totally against the proposal by the city of Missoula to ban flavored tobacco products.

Montana already has laws, rules, and regulations regarding the use and sale of tobacco products. This proposal is another example of the city of Missoula overstepping their authority.

Missoula citizens do not need a big brother type council that feel the need to police things that are already being handled. You should be spending your time on more important things like affordable housing and the homeless problem.

I have lived in Missoula city and county my entire life 50 plus years. Every year the council decides they know better than the people who live and work here. At what point will you realize that you have taxed and regulated the average family out of town. Who will then work at the drive thru, gas station, or grocery stores.

Sincerely
Kimberly Boyd
