Dear Council Members,
As I understand it, there will be a final vote to toughen the anti-trapping ordinances in and around Missoula, which will be held this evening.
I just wanted to encourage you to pass this important ordinance to help keep pets and people safe as they enjoy our beautiful city. No one should have to go through the horror that Betsy's owners went through when this young dog was killed by an illegally-set trap in a residential area while walking with her owner.
Also, I feel that the public needs to be made aware of the possibilities of encountering traps (legal and illegal), so signs and news media will be essential for this awareness in order for them to be informed and to stay safe.
Thank you all so very much for moving forward with this important legislation.

With appreciation,
Peg Brownlee
