Subject: Trapping Ordinance public hearing
Date: Monday, November 2, 2020 2:12:17 PM

Dear City Council members,

I thank the council for taking up this important issue. This is one of public safety. I hope you will make this a unanimous vote! It is vital that we begin to end the threat of trapping in our community and this is an important first step. Moving forward I would like to see an end to trapping in the urban wildland interface of Missoula, especially in areas of high recreational use.

Finally, I strongly ask that signage is placed in all open space and city lands so there is no confusion that trapping is illegal. This is particularly important to me so that I know where I can safely take my 5 dogs to enjoy the outdoors without fear of devastating harm.

Thank you in advance of your vote on this important issue!

Sincerely,
Lee Bridges
