Subject: Matts Larson request for core budget spread sheets pertaining to police department budget.

MATTS:

City finance director Leigh Griffing informs me that the full adopted budget has been public on the city website since adoption. In addition, Leigh informs me that the second link in her email below has the most detail. Leigh states that the documents publicly provided conform to Montana state law as well as generally accepted accounting practices which is what the City uses.

Police chief Jaeson White informs me that the city police department does not produce or maintain the police department budget documents.

JIM NUGENT

Jim,

Thank you for responding to Mr. Larson.

The full adopted budget has been public and on our website since adoption. The adopted budget workbook is slightly summarized but shows the budgeted revenues and expenditures for all City funds as approved by City Council.

This links to the adopted budget in PDF form:
http://www.ci.missoula.mt.us/DocumentCenter/View/53844/FY2021-Adopted-Budget-Workbook-with-resolutions

Reports found here show budget to actuals and these get broken down into even more detail that the adopted budget link above.
