Council-

Missoula is an amazing place and in fact it keeps getting better with the increases in town trail access- Barnmeyer, the new bike trails on Marshall, with more to come.

The Mt Dean Stone Corridor and the High, Wide and Handsome trail will be such an important addition to this growing town that craves open space. Open space and places to explore promote healthy lifestyles, an appreciation of the climate and clean air, as well as a desirable place to live, among lots of other things.

We are writing today to ask you to please acquire the Mt Dean Stone Corridor and continue making Missoula one of the last best places!

Sincerely

Elizabeth Paddock and Tim Caramore
438 Jefferson St, Missoula MT
