Hi Jesse,

I think it would be very humane and compassionate for the city to use it's powers to create something like this... a safe haven parking situation for the many future and current homeless citizens of Missoula.

As the community has been saying for a very long time now: create the safety net now or suffer the consequences later.

I'm cc'ing the rest of council and the mayor but I don't really expect much of a response or action from them. One can still hope I guess.

Stay warm!

Best Regards,
