---

Hello, public servants.

I understand that under New Business at Council tonight, Leigh Griffing will present a 2021 Budget Amendment that relates to the recently announced HIDTA/Missoula Substance Abuse Connect grant. I know many of you are familiar with this grant, but here's a fact sheet about it. We welcome your involvement!

On another subject, I'm aware that several of you have been asked questions by/heard protests from constituents about the Missoula Temporary Outdoor Space project that is a collaboration between United Way, Hope Rescue Mission, the county and a number of nonprofits and businesses. I'm also aware, of course, that some people aren't really interested in the **facts** about the project -- but also attached is an updated list of FAQs about it.

As always, thank you for your service!
--

Sincerely,

susan
