Dear council members,

I appreciate the work you all do and I believe you have the best interests of our town in mind. However, I am astounded that the condo project on South 4th Street Easthas been approved. Specifically, how can you believe that 120% of median income is affordable? By definition, this is NOT affordable. ABSURD! . You have been duped by these developers. I expect better from leaders in our community who share my values.
