Subject:	Who is the flipping brilliant genius that decided to have a reverse parade during Saturday dinner rush?

I was stuck in traffic for over an hour trying to deliver food....thanks for reminding me of Military Intelligence...you cost me time, money and caused me to have a very strong emotional disturbance!

For what reason did you decide this was a good idea? A child of 4 knows better than this! Traffic jams are never a good idea...you could have done this at the fair grounds or the mall.

I hope nobody had an emergency that needed taken care of....flipping genius idea!! Thanks for ruining my night...I was simply trying to make enough money so I would be able to keep my car running all night so I wouldn't freeze to death.

Get ready for the law suits Missoula!!!
