To: Mayor John Engen
cc: City Council

Dear Mayor Engen:

Thank you for sharing with Montanans your experience with COVID-19 in your ABC FOX Montana TV interview aired February 12.

Your genuine empathy and compassion for others, and your love and devotion to your mother, were palpable.

The SARS-CoV-2 virus does not give one single, solitary damn what anyone's politics are. I hope your story and example will encourage people to follow contagion control protocols, to refrain from jumping tiers in the vaccination queues, and to extend compassion and aid to all who need it.

I hope your gustatory/olfactory senses return soon. Everyone I know who experienced that, had return of normal senses no later than five months post-illness,.and most within three.

Best wishes.

/s/ J. Kevin Hunt
