SOURCE OF ERRONEOUS INFO RE COMMISSIONER VERO DISCOVERED. (Or, "We have met the enemy, and it is us." — Pogo [Walt Kelly]). Email sent to Commissioner Vero, et al:

June 8, 2021

Dear Commissioner Vero, et al:

I have determined the source of the error in my press release that erroneously asserted that Missoula County Commissioner Juanita Vero sat on the WMMHC Board of Directors, and I'm embarrassed to find that the error originated in my brain.

Previously, I'd written positive comments about Commissioner Vero's association with the Coordinated Entry program that works to assist houseless persons in attaining housing. In the fast-paced stream of developments pertaining to the housing emergency, I mentally conflated Commissioner Vero's service in that endeavor, with my research into the composition of the Board of Directors of Western Montana Mental Health Center, on which do sit several current and former county and municipal elected officials from throughout Western Montana.

That's quite a conflation. It serves as a reminder to pause for a definitive confirmatory re-check prior to reciting 'facts' and making demands.

Care for a slice of humble pie?
