Subject: . Oil Paintings, Chinese Paintings, and Artificial Marble Paintings - Feng Fine Art
Date: Sunday, September 5, 2021 1:14:25 PM

Good day!

We would like to introduce you to the Oil Paintings, Chinese Paintings, and Artificial Marble Paintings supplied by our company. We notice that you are an importer of paintings, so you may be interested in our products.

We are Xiamen Feng Trading Co., Ltd. We have thousands of original hand-made paintings, including oil paintings, traditional Chinese paintings, in different styles created by more than one hundred Chinese artists, some of whom are renowned in Chinese fine art communities.

You can visit our website for discovering more artworks:
https://www.fengtrading.com/

The highlight of the collection of our artworks is Artificial Marble Paintings (Stone Powder Paintings). In 1987, Artificial Marble Paintings (Stone Powder Paintings) were invented by Chinese painter LIU Feng, who is also the founder of our company. Artificial Marble Paintings (or Artificial Marble Decorative Paintings, Stone Powder Paintings) are painted on canvas or slate with natural stone powder, mineral pigments, iron oxide pigments, and oil paints as the main paints. Paint is used as a seasoning material. Its hardness, toughness, and corrosion resistance are similar to natural marble.

Please also allow us to take this opportunity to show one example of our paintings to you:

You can also request us to create custom-made artworks for you.

We hope that your interest in our paintings has become magnified, and we sincerely look forward to receiving your inquiry.

Kind regards,

Hector Liu
