Missoula Government and Connected Agencies, and ignorant Council Members, and the Missoulian and the Downtown Association should be held accountable stealing the political processes, (Im not even talking about voter fraud), the zoning processes for now, decades, with the lies and cronyism in and out of Missoulas Government, and now their supposed protection with the Biden Presidency. 500 S Higgins is at Grizzly Grocery.
How many Residents who fought the fraudulent previous Zoning Changes were told that Downtown Missoula conspirators, the Missoulian, and relatives and friends, and look away and, too often, crooked Missoula Lawyers if long time Politicians were operating to steal a City ?

And not one person could respond and say Beckwith.
