Council People:

My name is Larry Wilson . I live @904 Greenough Drive West/Waterworks Hill. I am concerned that when the new parking area goes in above me, that the lighting will be to much.there are only a few of us that live here so we are often not heard. I would like to suggest the use of LED lighting like the lights that they used on Hillview. They won't light our neighborhood. But they will create the security necessary for nighttime travel I can be contacted @ 406 549 3483.I broke my back, and am in a wheelchair so it is hard to get to your meetings Thank you Larry Wilson
