Greetings City Council Members,

I wanted to invite you to our upcoming home dedication for Laura Bird. She is a single mother of three great kids, an Eligibility Specialist at All Nations Health Center, plays roller derby, and is an appointed member of the Affordable Housing Trust Fund Resident Oversight Committee - a community rock star. These dedications are a fun way to celebrate all the hard work of our partner families and volunteers who made a house a home. Plus, as an added bonus they are a great way to walk through the home and see what they are like.

This home will be Habitat's first to go into the Community Land Trust with Trust Montana. This CLT model makes this home permanently affordable for generations to come and is proving to be the transformational change our community needs to address our housing crisis. Please let me know if you can join us, or if you have any questions.

-Heather
