Please Join Us:

Decriminalize Nature Missoula will be hosting an educational event and presentation of the resolution materials in a community discussion forum, Wednesday, May 25, 2022, 3 - 4:30pm, at the Missoula Public Library, Cooper Room B 402.

In this forum, we will share the proposed resolution, invite community members to have a few minutes each to share their support or voice any concerns that the community can take into consideration during and after the resolution process. Some time will be allocated to addressing these areas during the forum, as part of the educational and constructive nature of this process.

For more information, please check out the Decriminalize Nature Montana website at decrimnaturemt.org to get involved.
