Subject: Decriminalize Pscilocybin
Date: Wednesday, June 8, 2022 5:49:45 PM

I understand through word-of-mouth that there is an effort to decriminalize the use of psilocybin for therapeutic use? As a disabled veteran who has found great success using this agent as a therapeutic I can tell you that you would be doing a world of good for the community of Missoula and the Nation at large.

I won't go into great detail about my experience but I will tell you that I'm alive today because of the insights that came from using these therapeutic properties.

Please, consider this my vote of advocacy towards the matter?

Thank you

Richard Heilman
U.S. Navy Veteran
