City of Missoula CIP Project Request Form FY 2016-2020

Program Category:	Project Title:	14 Project #	15 Project #	16 Project #
Street Improvements	Annual Sidewalk Installation and Replacement Program	S-16	S-16	S-15

Description and justification of project and funding sources:

This program systematically replaces hazardous and deteriorated sidewalks and installs curb ramps throughout the existing sidewalk system of Missoula and installs new curbs and sidewalks where there are none. The Public Works Master Sidewalk Plan, Missoula Active Transportation Plan, Neighborhood Infrastructure Plans are used to prioritize the areas that will be upgraded first. The costs are assessed to property owners. The costs of installing curb ramps are shared by property owners and road district monies depending on the situation. City Council allocated \$60,000 annually from the Special Road District toward the cost of curb ramp installation. The City has created a sidewalk subsidy program using road district funds to assist property owners with the costs at an approximately 2:1 ratio. Development Services has created a proposed 5 year sidewalk improvement plan whose implantation dates will vary with the amount of funding made available for the Sidewalk Subsidy Program and additional street improvements.

Projects previously listed under the CIP titles of: Neighborhood Infrastructure Street Improvements, Rattlesnake Drive Sidewalks, Bellevue Park Sidewalk Improvements, and Eldora Lane Drainage Improvements have been included in this 5 year plan and included in this CIP.

The sidewalk program proposed for construction in 2015 is attached.
