Riverfront Triangle Special Zoning District

INTENT: The intent of this special zoning district is to further the site specific goals and vision established through a community planning process for the Riverfront Triangle along with the neighborhood and community goals and policies established through adopted comprehensive plans. The applicable comprehensive plans for the area are the *1998 Missoula Urban Comprehensive Plan* and the *2000 Joint Northside/Westside Neighborhood Plan* as well as the *Urban Renewal District I Plan*, *Missoula Downtown Riverfront Plan*, and *Missoula Urban Area Open Space Plan*.

Specifically, the Riverfront Special Zoning address the

intent of the Triangle District is to following:

- Establish a mixed use area that functions as an introduction to the downtown area.
- Serve the needs of the neighborhoods as well as the larger community by offering a variety of uses including offices, residential, commercial, and retail.
- Support diverse business and employment opportunities.
- Make efficient use of existing local services - including right-of-ways, proximal emergency and law enforcement services, transit, trails and sidewalks, utilities, recreational opportunities, parks and Open space.
- Establish a community gateway at a key intersection along a major travel corridors leading into the downtown area.
- Coordinate new development with relationship to streets and adjacent buildings. Reinforce a “pedestrian-friendly” experience along the streets. Consider the relationship between buildings as they collectively make up the streetscape.
- Encourage development with primary entrances facing the street and public areas..

- Expand the non-motorized system to include multiple choices for pedestrian movement throughout the zoning district as well as connections to the Clark Fork River and areas outside the Zoning District. To continue the Riverfront Trail corridor.
- Consider the views from and through the site to the vistas both north and south, and important landmarks.
- Encourage preservation and enhancement of natural areas, green spaces, and areas with open space values.
- Encourage land uses which will promote the natural, recreational, and historical character of the riverfront as well as land uses that will allow public enjoyment of the area.
- Provide for the integration of built environment and public and private open space.
- Establish design standards to achieve the goal of creating thriving commercial districts which are characterized by convenience, are attractive in appearance, are compatible with adjacent land uses, and in which the mixture of uses complement one another.
- Design parking, delivery, and service spaces that will not detract from the primary uses on the site or public enjoyment of the streets, sidewalks, walkways, riverfront, and other public areas.

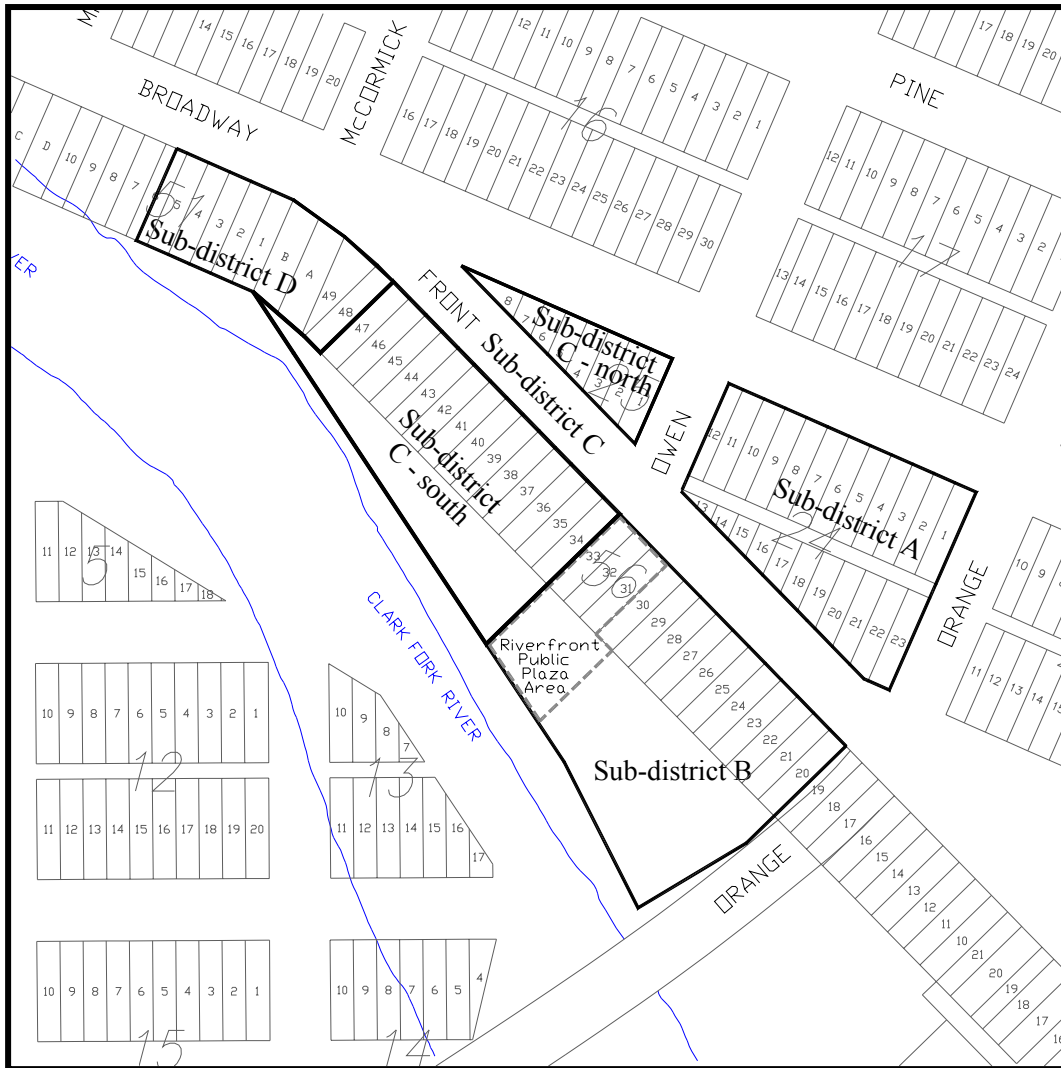

Special District Review Process and Submittal Requirements Applications for a Zoning

Compliance Permit for the Riverfront Triangle Special Zoning District may be initiated by the property owner or designated representative. A request for a permit shall include the following:

1. A Zoning Compliance Permit application;
2. A site plan drawn to scale showing all the following information:
 - a. North point; and
 - b. Boundaries, easements and ownerships as set forth in the legal description; and
 - c. Topography at appropriate contour intervals; and
 - d. Existing structures and improvements; and
 - e. Location of existing vegetation including trees over ten (10) inches in diameter that might be impacted by the proposal, watercourses, other natural features and areas of slope greater than twenty-five percent (25%); and
 - f. Proposed improvements, if any; and
 - g. Utilities and/or septic design, if appropriate; and
 - h. All adjacent streets and right-of-way;
3. Elevation drawings and/or photographs of all existing and proposed buildings including data specifying the percentage of window and door openings;
4. A narrative addressing all information necessary to evaluate the application and the criteria established in this Riverfront Triangle Special Zoning District;
5. Permit fees as required.
6. Other information deemed necessary to evaluate the application.

Special District Planning: The Riverfront Redevelopment Triangle Master Plan serves as a guiding document in planning and decision-making in the Special Zoning District. Each of the “Sub-districts” described in this document correspond to the similarly described “Parcel” in that Master Plan.

Sub-District Plan

Definitions:

1. **Retail Trade Use:** Areas where purchase, sale, or other transaction of goods, wares, merchandise, substances, or other articles or services, are made directly with the public. This definition includes restaurants defined as: a building or space within a building where food and/or beverages are offered for sale to the public for consumption either inside or outside. As an accessory use, take-out service of food and/or beverages for off-premise consumption may be provided. Taverns are acceptable uses subject to the applicable Missoula City Zoning Ordinance.
2. **Service Business:** Businesses that provide a personal service. Examples of service businesses include federally regulated lending institutions, tailors, instructional businesses, health enhancement businesses, an establishment which provides forms of personal grooming including barber shops and hairdressing.
3. **Office Uses:** Professional, administrative, educational, and governmental office uses are included in this category. Medical offices that do not included clinical or laboratory uses are considered professional offices.
4. **Medical Laboratory, Out-Patient Surgical Center, Research Uses:** Medical laboratory space, instructional space, medical out-patient surgical center, physical rehabilitation center, and research laboratory uses as long as they are adequately insulated from creating distractions to nearby uses from noise, smells, etc. Such areas may also be utilized to house such uses as "fiber hotels". (A research laboratory is defined as an establishment where facilities are located for scientific research, investigation,

testing, or experimentation, but not facilities for the manufacture or sale of products, except as incidental to the main purpose of the laboratory.)

5. **Residential Uses:** Units that are for lease, rent or sale that are used as permanent living quarters. Residential uses such as “assisted-living”, senior housing, skilled nursing residential facilities, and residential hospice are included in this definition.
6. **Hotel/Motel Use:** intended for temporary residential uses from overnight up to sixty days.
7. **Civic Use:** An area of the Riverfront Triangle (Sub-District B) is designated as appropriate for large scale civic uses such as a conference/meeting center or a performing arts facility.
8. **Open/Public Space:** Any space that is used in part or whole by the general public that is devoid of buildings and other structures, except buildings, structures, and public art accessory to the public space. Such areas shall not be used as a primary vehicle access for adjacent uses or for ground surface vehicle parking. Examples within the Riverfront Triangle include areas that preserve view sheds, sidewalks and other right-of-ways; trails, passages and accesses to public amenities; areas adjacent to the riverfront, and public plazas.
9. **Parking Standards:** The standards for number of parking spaces are as listed in the Missoula Zoning Ordinance Chapter 19.78 (Off-Street Parking) or otherwise approved by the City.
10. **Street Level with Frontage:** Building uses that have direct physical and visual access to the adjacent right-of-way.
11. **Street Level without Frontage:** Building uses on the street level that have other than direct physical and visual access to the adjacent right-of-way such as arcade-style retail uses and other interior spaces.
12. **Ground Level:** Where uses may have at grade access to land other than sidewalks/streets.
13. **Building Height:** The vertical distance measured from the elevation of the sidewalk or finished grade adjacent to the building to the highest point of the building.
14. **Street Wall:** An opaque, freestanding wall built along the frontage line, often for the purpose of masking a parking lot from the street. Streetwalls shall not exceed 3’-6” in height, and be constructed of a material matching the adjacent building façade. Streetwalls may have openings no larger than necessary to allow automobile and pedestrian access.

General Development Standards:

1. Parking:
 - a. The standards for number of required parking spaces are as listed in the Missoula Zoning Ordinance (Missoula Municipal Code Chapter 19.78 (Off-Street Parking)). These standards shall be a maximum, as well as a minimum requirement. Parking requirements for Sub-District D shall only apply to permitted residential uses.
 - b. Parking areas or structures containing spaces allotted to specific buildings or uses are not required to be owned by users or building owners. If the parking spaces are not owned, users are required to submit agreements or other written documentation verifying reserved, set-aside, or shared spaces.
 - c. Parking areas and structures are a permitted use in areas without frontage on right-of-way or public spaces. Entrances, exits, and driveways to and from parking areas are permitted in areas with frontage on right-of-way.
2. Signs:

Signs must comply with Missoula Sign Ordinance (Missoula Municipal Code Chapter 19.90).
3. Architecture

- a. All principle uses shall have a primary entrance which is a clearly defined and highly visible pedestrian entrance fronting a public street or right-of-way, other than an alley.
 - b. Modulation, the stepping back or extending forward of a portion of the façade a minimum of two (2) feet shall be provided such that no uninterrupted length of façade shall exceed sixty (60) horizontal feet.
 - c. Articulation, using two or more of the following methods along the public streets and rights-of-way shall be provided to create visual variety; reduce the apparent bulk of buildings; and establish complementary patterns or rhythms along public facades.
 - i) Include the use of building elements such as pilasters, colonnades, canopies, covered and uncovered pedestrian entrances, patios, and decks.
 - ii) Change materials with the change in building planes.
 - iii) Change rooflines
 - iv) Provide landscaping such as trellises, shrubs, and planters
 - d. Facades at street level with frontage or ground level shall provide a minimum of 60% of repetitive door and window openings at street or ground level to establish a pedestrian-friendly relationship between uses inside and outside of the building. The minimum amount of door and window openings may be reduced to 15% on other levels.
4. Parking areas and structures are a permitted use in areas without frontage on right-of-way or public spaces. Entrances, exits, and driveways to and from parking areas are permitted in areas with frontage on right-of-way.
5. Riverfront and Public Access
- a. Where physically feasible, the entire area is preferred to be served by a public riverfront trail that connects to the Ron MacDonald Riverfront Trail System, the public riverfront trails and parks system east of the Riverfront Triangle Special Zoning District. Access to the riverfront public area within the Riverfront Triangle from West Front Street and, if applicable, West Broadway (in the area of Sub-District D) shall be by way of regularly spaced public accesses as well as the Riverfront Public Plaza. Spacing of such accesses should not exceed 200 feet and may be in the form of public plazas, passageways, trails, or multi-use areas with delivery or parking accesses. In the event the accesses are multi-use, they should include a clear demarcation as to the pedestrian and bicycle travel areas, and be designed in a fashion that provides a safe and attractive experience for the pedestrian user.
 - b. An ADA accessible public park is preferred in the southeast corner of Sub-District B.
 - c. If more than one structure occupies the West Front Street frontage of Subdistrict B, at least one public pedestrian access between West Front Street and the riverfront trail of at least 20 feet in width is preferred to be placed between buildings. Such access should be located at least 100 feet east of the eastern edge of the Riverfront Public Plaza and at least 50 feet west of Orange Street.
 - d. A public park or plaza is preferred at the intersection of Front and Broadway in Subdistrict C-North.
 - e. Open space in the form of a pedestrian way or small plaza area for use by the general public in Subdistrict C-South is preferred no closer than 150 feet to the western edge of the Riverfront Public Plaza and no closer than 150 feet to the western boundary of Sub-District C. Such access, pedestrian way, or public plaza should provide public access between West Front Street and the Riverfront Trail.
6. Riparian Resource: Where applicable in the Riverfront Triangle Special District, the Riparian Resource Zoning District (Missoula City Zoning Ordinance Chapter 19.51) shall be required for zoning compliance at time of building permit.
7. Street trees are required in accordance the Missoula Boulevard Ordinance (Missoula Municipal Code Chapter 12.48).

8. A method acceptable to the City to guarantee standards for improvements, appurtenances, and maintenance of all lands within the proposed zoning district that are located within dedicated public rights-of-way, parkland, or public access easements shall be initiated within one year of initial construction within this zoning district subject to review and approval of OPG, City Public Works Department, City Fire Department, and City Parks and Recreation Department.

Prohibited Uses in the Riverfront Triangle Special Zoning District:

1. Adult bookstores, adult theaters, and other retail and entertainment outlets primarily purveying sexual material.
2. Automotive repair, auto body or paint shop, or sales or re-sales.
3. Welding or metal working shops.
4. Any business or trade that is noxious or offensive by reason of emission of odor, dust, smoke, gas, vibration, noise, or which imposes any extraordinary hazard to life or property.

Specific Sub-District Standards and Permitted Uses:

SUB-DISTRICT A

A. Purpose:

Sub-District A, a irregular polygon-shaped area bounded by West Broadway, Owen Street, West Front Street, and Orange Street, is intended as a series of mixed uses (retail trade, professional offices, and residential rental or condominium units) wrapped around a central parking structure. Depending on the ultimate intensity of uses within Sub-District A, the parking structure may extend both underground and above ground within the confines of the surrounding buildings which face the four streets listed above. Retail Trade and service businesses are required in portions of Sub-District A but are allowed and encouraged along the street level facing all streets. Residential uses are encouraged in upper levels along West Broadway and Orange Streets. Professional Office uses are most desired in the upper levels along Owen and West Front Streets.

B. Permitted Uses in Sub-District A:

 - ii. Professional Office
- c. Second level:
 - i. Retail and Service Businesses
 - ii. Professional Office
 - iii. Residential
- d. Other levels:
 - i. Professional Office
 - ii. Residential

C. Setbacks / Build-To Lines:

Buildings are to be constructed on the property line except for required entryways and façade modulation. Facades shall be built parallel to the principal frontage line along a minimum of 70% of its length with a setback of 0'. In the absence of a building along the remainder of the frontage line, a street wall shall be built coplanar with the façade.

D. Building Height:

Maximum height of buildings constructed in Sub-District A is seventy-six (76) feet.

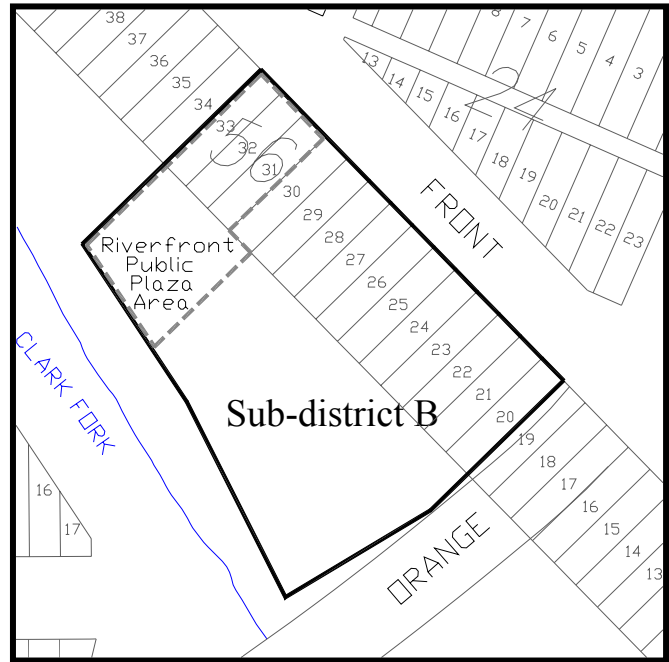

E. Supplemental Regulations:

- 1. Minimum sidewalk width on West Broadway is 12 (twelve) feet. Minimum sidewalk width on Orange Street is 10 (ten) feet. Minimum sidewalk width on Owen Street is 10 (ten) feet. Minimum sidewalk width on West Front Street is fifteen (15) feet.
- 2. No open space or public spaces are required in Sub-District A.
- 3. Parking areas and structures are a permitted use in areas without frontage on right-of-way or public spaces. Entrances, exits, and driveways to and from parking areas are permitted in areas with frontage on right-of-way

SUB-DISTRICT B

A. Purpose:

Sub-District B is an irregular shaped area bounded on the north by West Front Street, on the east by Orange Street, on the west by the western line of Lot 33 of Block 56 in McCormick's Addition extended to the northerly bank of the Clark Fork River (approximately 320 feet west of and parallel to the western right-of-way of Orange Street), and on the south by the northerly bank of the Clark Fork River. The Sub-District is planned as a series of mixed uses (retail and commercial office uses along with residential rental or condominium units, hotel, and allows a large scale civic use). Parking will be primarily built under the structures. Retail Trade and service businesses are required in some areas of Sub-District B and are allowed and encouraged along the street level facing all streets. Public areas include a public plaza planned adjacent to the west boundary of Sub-District B (Riverfront Public Plaza) and public land along Clark Fork River south of the Sub-District.

- d. Other levels:
- i. Professional Office
 - ii. Hotel/motel
 - iii. Civic Uses
 - iv. Residential

C. Setbacks / Build-To Lines:

1. Along West Front Street and Orange Street buildings are to be constructed on the right-of-way property line. Street facades shall be built parallel to the principal frontage line along a minimum of 70% of its length with a setback of 0'. In the absence of a building along the remainder of the frontage line, a street wall shall be built coplanar with the façade.
2. Buildings may be built to the property line along the Riverfront Public Plaza. Where buildings are set back from the western boundary, the setback area shall be no more than 15 feet in width and must be landscaped.
3. Buildings must be set back at least 50 feet from the top of the north bank of the Clark Fork River.

D. Building Height:

1. Maximum height 76 (seventy-six) feet along West Front Street and Orange Street.
2. Maximum height of buildings constructed within 100 (one hundred) feet of the top of the Clark Fork River bank is 30 (thirty) feet. Buildings within 80 (eighty) feet of the top of the Clark Fork River's north bank shall be no higher than one story to a maximum height of 20 (twenty) feet from the top of the river bank.
3. The maximum height along West Front Street and Orange Street (excluding the area within 100 feet from top of river bank) may be increased to 105 (one hundred five) feet under the following conditions:

Condition 1: Adequate parking is provided for the additional space created that is visually shielded or otherwise has no visual impact from the riverfront trail.

Condition 2: Sightlines as indicated in Diagram A shall be maintained around or through the building from both south and north perspectives.

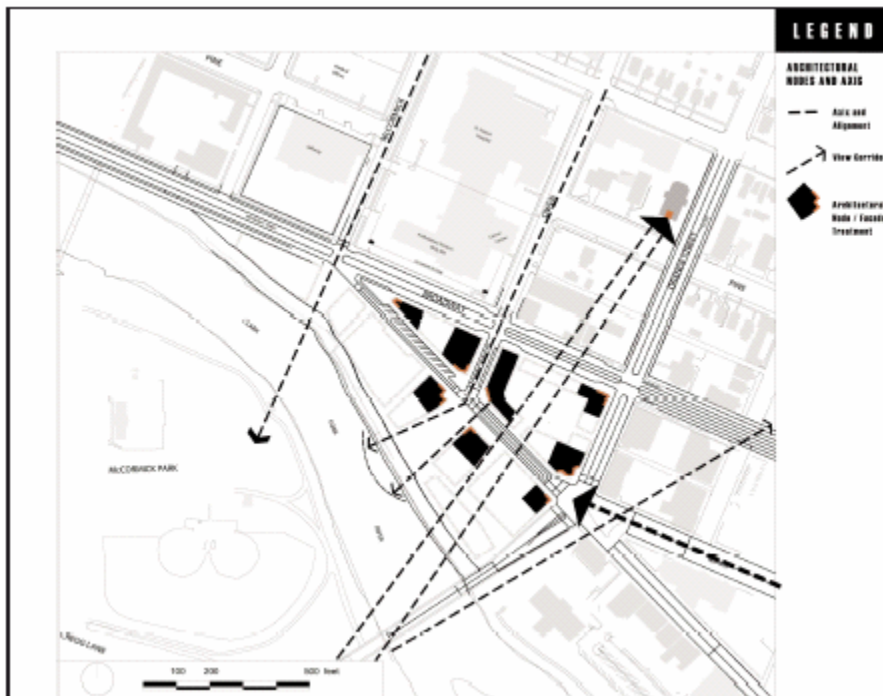

Diagram A

Condition 3: No more than one-half of the total area of Sub-District B shall be built more than 76 feet in height.

E. Supplemental Regulations:

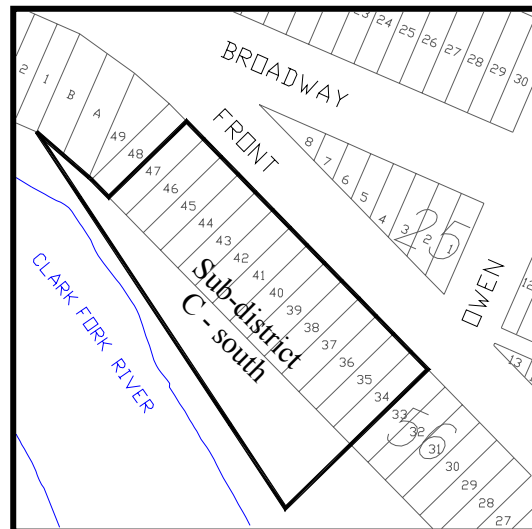

1. The minimum percent of door and window openings may be reduced in Sub-District B depending on alternative façade treatment along Orange Street and portions of West Front Street. A majority of the openings should be placed close to the primary entrances along those streets. The District shall require Design Review Board approval of any “alternative façade treatment” proposed as an exception to the standards.
2. Minimum sidewalk width on West Front Street is 15 (fifteen) feet. Minimum sidewalk width on Orange Street is 10 (ten) feet.
3. If more than one structure occupies the West Front Street frontage, at least one public pedestrian access between West Front Street and the riverfront trail of at least 20 feet in width shall be placed between buildings. Such access should be located at least 100 feet east of the eastern edge of the Riverfront Public Plaza and at least 50 feet west of Orange Street.
4. Where feasible, loading, delivery, etc. will be made at the rear (south side) of buildings that face West Front Street. Adequate access from West Front Street to the rear of the buildings and appropriate area given the use of the building for loading and delivery at the rear of the buildings shall be provided in such cases. Primary access to the rear of the buildings and parking shall not be from Orange Street or public riverfront areas. Design for any loading and delivery area located along West Front Street must be visually shielded from public view and receive specific written approval by City Public Works Department.
5. Parking areas and structures are a permitted use in areas without frontage on right-of-way or public spaces. Entrances, exits, and driveways to and from parking areas are permitted in areas with frontage on right-of-way.
