Outdoor activities during wildfire season

[Current air quality in Missoula County](#)

During wildfire season, Parks and Recreation youth and adult programs follow the state [Outdoor Activity Guidelines Based on Air Quality for Schools and Child Care Facilities](#).

Youth Programs:

We modify youth activities to find a balance between low-exertion outdoor activities and indoor activities as needed. Programs can meet entirely indoors if indicated. Questions or concerns? Please email us at youthprograms@ci.missoula.mt.us.

Adult Programs:

Adult programming is canceled if air quality is unhealthy, very unhealthy or hazardous. Participants are notified by email by 4:30 pm each program day. Questions? Please email adultsports@ci.missoula.mt.us.
