b. Costs and Planning for traffic circles

- ii. Concrete bump (\$?) and rubber bump roundabouts (\$5-7k) are still quite expensive
- iii. The city acknowledges that temporary roundabouts are not the most attractive solution but are most cost effective
- ix. Ignored stop signs, speeding, and concentrated pollution are concerns with adding stop signs
- x. Dept. tries to alternate traffic circles and stop signs.

c. Discussed proposed Safety, Accessibility and Mobility plans

- i. Higgins (Brooks to Broadway)- single northbound and southbound lanes with a center turn lane, addition of bike lanes where they're missing.
