Subject: Can't happen in Missoula?
Date: Wednesday, September 20, 2017 1:25:43 PM

Dear Mayor, Council, and those serving the city of Missoula:

Thank you for your dedication to Missoula.

Here is a November 3-4 national security livecast for your consideration:

"Understanding and Preparing for the Terroristic Threats Against Your Family, Community, and Nation," which can be viewed by any group, civic or private, in any meeting room or home:

<http://www.worldviewweekend.com/live-stream>

As the time draws near, the following recent report points out why we need to open our eyes to the new world in which we live. Can't happen in Montana? Consider the Flathead County cyber-terrorism incident, how it changes lives at great cost to the community.

Update:

Listen to what happened when (the above livecast's) national security expert John Guandolo recently spoke in Oakland, Iowa - how minds were radically changed.

Learn how organizations all over rural/small-town America are actually Muslim Brotherhood/Hamas organizations, terrorist organizations, whose stated objective is to wage civilization jihad in order to impose shariah under an Islamic state in the USA.

Oakland, Iowa community meeting:

<http://www.worldviewweekend.com/radio/audio/john-guandolo-september-18-2017>

Though the meeting of over 100 people drew a dozen protesters, by meeting's end they realized that -- in the front row -- sat a CAIR leader and one serious jihadi/Hamas operative. **Local residents claimed they had never heard this information.**

In a civil and polite manner, Guandolo gives a warning from community to community, backed up by his national security experience. You might want to follow Guandolo's updating broadcasts about what happened in Iowa and Nebraska. He points us to former Egyptian Muslim, Mark Christian (not his Egyptian name). Google his youtube, Mark Christian on "Islam in Nebraska."

The livecast focuses on a variety of threats to our security, offering solutions and steps to take, not hand-wringing. Threats include active shooters/chemical attacks/vehicular attacks in malls, on campus, in schools, swimming pools, ice rinks; extreme weather and catastrophes such as hurricanes and earthquakes (learning from Katrina); global threats to our national security; and other threats and emerging forms of terrorism.

Please spread the word to your friends, clubs, civic leadership groups, and law enforcement. Feel free to forward this email to anyone willing to offer this livecast.

If you want to know more about John Guandolo:

May these words not be spoken in Missoula: **We never heard this information.**

Thank you for serving,

Virginia Leinart

Subject: BCOW extension today
Date: Wednesday, September 20, 2017 12:35:58 PM

Council folk, I have asked Jordan to yield 30 minutes of Public Works to BCOW today, so there is time for any questions about the amended budget resolution. The water utility update will be postponed for 2 weeks and I am grateful to those staff members for being flexible.
