City of Missoula CIP Project Request Form FY 2013-2017

Program Category:	Project Title:	11 Project #	12 Project #	13 Project #
Community Service	Two-way Front and Main Street Traffic Flow Project	CS-18	CS-18	CS-13

Description and justification of project and funding sources:

This project is the 2nd of 10 recommendations from the Missoula Downtown Streets Project Plan for improving and revitalizing streets in the downtown area. This project consists of converting Front and Main Streets to two-way streets. This change would require modifications at the Orange/Front/Main, Higgins/Main, Higgins/Front and Madison/Front intersections to accommodate two-way traffic flow. The change could allow potential diagonal parking on Front Street to enhance adjacent retail and commercial uses on Front. The Downtown Streets Project is intended to: provide a high quality pedestrian environment; improve traffic flow, access and circulation to downtown; provide additional on-street parking; create an inviting streetscape and festival atmosphere; and establish Downtown as a high quality place inviting additional investment in redevelopment. This project would help to "brand" the area by offering a unique look exclusive to the Downtown. The 10 recommendations consist of: 1) North Higgins Streetscape; 2) Two-way Front & Main Street Traffic Flow; 3) New Street & Pedestrian Lights; 4) Diagonal Parking on Front Street; 5) Streetscape Hip Strip; 6) "Blues Alley" Entertainment District; 7) Streetscape Pine Street; 8) Upgrade Traffic Signals; 9) Create Carousel "Gateway" on Front Street; and 10) Additional Streetscaping & Bulb-outs through redevelopment and individual projects.

The MPO has pledged to use \$100,000 of Surface Transportation Program Urban funds to study the project's feasibility and determine construction costs. Montana Department of Transportation is resurfacing Main Street in a pavement preservation project in FY13.
