ARTICLE 2: RECOGNITION

- 2.1 The Employer recognizes the Union as the exclusive bargaining agent for all employees of the Fire Department, except the Chief, Assistant Chiefs, newly hired Firefighters with less than 90 days of employment, Mobile Support Team EMTs, and administrative support positions.

ARTICLE 3: UNION MEMBERSHIP

- 3.1 The Employer recognizes the lawful rights of members of the Union to self-organize, join, and support the Union for the purpose of engaging in collective negotiations and other lawful concerted activities and for mutual aid and protection. All Employees covered under the terms of this Agreement may voluntarily join the Union. The City of Missoula, including its directors, managers and supervisors, shall remain neutral on the issue of whether any Employee should join the Union or otherwise participate in Union activities. New employees will be given a Union orientation within their first 30 days of employment by a designated Union representative(s).
- 3.2 Any member of the bargaining unit may authorize the Employer to deduct from their pay the amount of dues or fees charged by the Union. This authorization must be in writing and forwarded to the Human Resources office by the cutoff date for the payday when it is to become effective. The Employer agrees to implement all the terms of dues-checkoff authorizations submitted to the Employer by the Union and agreed to by the employee. The Employer shall adhere to the specific provisions in each dues check-off authorization regarding the duration, renewal, procedure for revocation, amount of dues deducted, and all other provisions agreed to by the employee as stated in the authorization.
- 3.3 Any Employee may revoke a written authorization for payroll deductions in accordance with the terms and conditions of the written authorization. Every effort will be made to end the payroll deductions effective on the first payroll period, and not later than the second payroll period, after Employer receives written confirmation from the Union that the terms for revocation of the Employee's authorization regarding payroll deduction have been met. Employer will refer all Employee inquiries regarding the Union's revocation process to the Union. Employer may answer any Employee inquiry about process or timing of payroll deductions.

- 3.4 The Union shall indemnify, defend, and hold Employer harmless against any claims made and any suit instituted against Employer as a result of payroll deductions from Employees for Union dues, fees, and assessments provided such deductions were made in accordance with Employer's good- faith reliance on the terms of a written payroll deduction authorization and at the direction of the Union.
- 3.5 Officially designated representatives of the Union shall be given time off with pay to attend Union business as herein provided:
- 3.5.1 Not more than three (3) members of the union negotiating team to attend negotiating sessions with employer representatives.

This provision does not preclude more than two official Union representatives (elected or appointed), determined by the Chief or their designee, from being present at said meetings.
- 3.6 Employees elected or appointed to Union office shall be granted reasonable time to perform their Union functions, including attendance at conventions, conferences, legislative assemblies, and seminars. Time off for these functions shall not result in additional expense to the Employer. The Employer will cooperate to the fullest extent with the Union in an endeavor to schedule time off. Union representative(s) with the approval of the Fire Chief or their designee may schedule time off their designated shift as long as Missoula Fire Department shift manpower requirements are maintained and pre-scheduled vacation, Holiday, and other compensatory time off commitments are honored.

This \$165 shall be considered "regular" pay for pension calculation purposes and for calculation of overtime rates of pay.

The City shall provide the same medical and dental and supplemental insurance benefits to firefighters as provided to other City employees under the City's self-funded health benefit plan.

From the beginning of the next plan year following the start of this contract and for the term of this contract, the Union agrees to accept increases in employee only, contributions to be no more than \$30 premium increase in a four year period and no more than a maximum monthly increase for all enrollment levels, including the cost of employee only not to exceed \$25/month per plan year provided these increases are approved by the City Council and in effect for all other City employees and provided further that the City's contribution increase is, at a minimum, the same percentage increase apportioned to the employee contribution rate

The Parties agree to negotiate, during the term of this Agreement, health benefit plan design changes prior to approval by City Council if such changes might result in a direct cost increase for deductible, max out of pocket or co-insurance without monthly premiums being frozen or reduced. The City shall notify the Union when above mentioned changes to benefit plan design are being considered. Other changes such as added benefits are communicated via the Employee Benefits Committee to which the union has a representative appointed. Further, the Parties agree to meet and confer, at the request of either party, if the plan consultant is projecting the need for a significant increase to contribution rates.

- B-1 The City agrees to work with the Union on premium and benefit issues through the Employee Benefits Committee (EBC). The Union shall appoint one (1) bargaining unit member to the EBC. It shall be the EBC Chair's duty to notify the Union representative of all EBC meetings.
- B-2 The City agrees to allow employees to participate in an I.R.C. 125 plan whereby the city's monthly health insurance contribution will be included in the employee's gross pay employees can contribute toward their health benefit plan on a pre-tax basis. Employer agrees to maintain no less than the contribution amount set in 2023 at \$1228.52 per month.:

This portion of the employee's gross pay is hereinafter referred to as the "Contribution." As part of this collective bargaining agreement, employees are required to participate in the City's health benefit plan on a pre-tax basis. the employee shall authorize a pre-tax payroll deduction from their gross pay equal to the Contribution amount. This deduction from the employees' gross pay will in turn be paid into the City's health benefit fund.

This Contribution amount included in the employee's gross pay serves the purpose of augmenting the employee's eventual retirement benefit through additional employee, employer and state retirement

contributions. Both parties acknowledge that employee pension contributions and employer pension, workers' compensation, and unemployment contributions will be required on the employee's additional gross income. Both parties agree that the Contribution amount is not included within and shall be excluded from the determination of the employee's regular rate of compensation as that phrase is defined under 29 U.S.C. 207(e)(4). In the event that any subsequent law, court, arbitrator, or other lawful authority determines that the inclusion of the Contribution amount in employees' gross pay should be included in overtime compensation calculations, then the parties agree that no retroactive overtime pay shall be paid by the City and there will be a corresponding reduction to employees' monthly base wages listed in Appendix A of the collective bargaining agreement to carry out the intent of this provision which shall result in no additional costs to the City.

Furthermore, the Union agrees that monthly base wages per Appendix A of the collective bargaining agreement do not reflect the additional cost to the City for adding this benefit. The additional cost to the City however, is included as part of the employees' overall compensation equal to the increase in monthly employer pension, worker's compensation, and unemployment contribution costs due to the inclusion of the Contribution amount in employees' gross pay.

MEMORANDUM OF UNDERSTANDING
EMT-Basic as minimum EMS certification

This Memorandum of Understanding (the "MOU"), dated December 2024 is between Missoula Firefighters Local 271 and The City of Missoula (together hereinafter as the "Parties")

BACKGROUND:

Missoula Fire Department through this MOU seeks to establish a mandatory requirement that EMT-Basic State of Montana certification be the minimum EMS certification all members of the bargaining unit must hold.

Parties agree to this requirement under the terms and conditions outlined in the next section (see "Terms & Conditions").

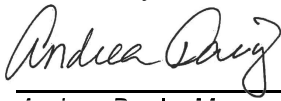

TERMS & CONDITIONS:

The parties agree to the following terms and conditions:

1. Any member of the bargaining unit may not willfully drop their EMS certification below that of EMT-Basic State of Montana. In the event that a member unintentionally loses their EMS State of Montana certification by any means, they will be job protected and may continue to work in operations for up to 60 days (under normal circumstances) while their certification is being reinstated. If unusual circumstances occur that delay the member from having their certification reinstated prior to 60 days, the Union and Fire Administration agree to work mutually to understand and correct any issues causing the delay. After 60 days the admin reserves the right to make a temporary assignment.
2. Members will continue to be compensated and supported by the Fire department in order to maintain EMS certification(s). This support includes but is not limited to costs associated with maintaining and re-certifying, necessary training, tracking of hours, management of paperwork, and all other measures that the department currently provides.
3. Through this MOU the parties are only agreeing to make EMT-Basic State of Montana the minimum EMS certification to be held per the terms of this agreement. If a minimum qualification EMS certification is desired to be changed it must be bargained
4. Due to the nature of the work (writing protocols, working with medical director, etc) in the EMSC position, the mandatory minimum EMS Certification for EMSC is EMT-P.

IN WITNESS WHEREOF, the parties hereto have set their hands and seal this day of December 2024

Memorandum of Understanding – Seniority and Longevity
This Memorandum of Understanding (MOU), dated February 2025 is between
Missoula Firefighters, IAFF Local 271 and the City of Missoula

Background:

The existing Collective Bargaining Agreement (CBA) did not clearly communicate the intention of negotiations in relation to how seniority would be calculated for staff moving from positions other than firefighter within the department/city. This MOU intends to clarify the intent of previously negotiated terms of seniority and longevity and to honor seniority for shorter term leaves of absence for staff.

This MOU changes previous language for Articles listed below.

ARTICLE 22:

SENIORITY 22.1

Seniority shall be determined by continuous service in the Missoula Fire Department calculated from the date of employment when hired as a trainee firefighter. The Fire Chief determines the order of seniority within a hiring group, with the first ranked being the most senior member. Continuous service shall be broken by only resignation, discharge, or retirement. Members who break continuous service will retain seniority per Article 22.2. Members holding a promotional confirmed rank (Captain, Battalion Chief) who break continuous service and return per article 22.2 will be eligible to return to rank based on their seniority number and may take the next available open position at their confirmed rank.. Chiefs who return to the bargaining unit within three years after leaving will maintain all seniority with no credit lost while outside of the bargaining unit and will accrue seniority for up to three years while outside of the BU (see 22.2 for details). The Missoula Fire Department shall establish and maintain a seniority list, and it shall be brought up to date January 1st of each year and immediately posted, either on the bulletin boards in all stations or electronically.

Seniority Retained 22.2

Members who break continuous service as outlined in 22.1 will retain seniority as set forth in this article per the date of return employment. Members will not be given seniority credit for time they are not employed at the Missoula Fire Department as a firefighter.

Assuming there is a vacancy, a previous firefighter can express interest in returning to MFD. The returning Firefighter must meet all requirements for hire and will be considered based on merit, which may involve a competitive process.

If a firefighter is selected and returns the following will apply to how seniority is determined:
Departure from MFD is one year or less: 100% seniority retained from time of departure, 100% rank retained from time of departure. May return to promotional rank (BC, Captain) upon the next vacancy.

Departure from MFD is more than one year: No seniority retained, and the member returns to the bottom of Seniority/MFD Experience. No prior rank is retained, and the employee returns as a trainee firefighter.

Chiefs who detach from the BU may accrue seniority for up to three years after detachment and will retain that seniority amount. For example, if a member leaves the BU with 20 years of Seniority to become a Chief and returns to the BU three years later, they would retain 23 years of Seniority. If a member left the BU with 20 years of Seniority to become a fire Chief and returns to the BU any time beyond three years, they would retain 23 years of Seniority.

As of January 2025. Any current employee in a union position that previously had lost seniority, will have seniority restored if they were gone for less than one year. Time away from the bargaining unit will be deducted from their seniority ranking.

LONGEVITY

Longevity will be 1% of confirmed firefighter base monthly rate for each full year of service after being hired as a trainee firefighter with the Missoula Fire Department.

Firefighters who have a break in service of less than one (1) year shall receive longevity based on their original hire date. Firefighters with breaks in service greater than one (1) year will receive longevity based on their rehire date.

Longevity/ Increment Differential shall be capped at thirty (30) full years of service.

The employee's actual date-of-hire anniversary shall be used for increment differential calculation purposes for the Local 271 Bargaining Unit.

APPENDIX C: PROMOTION POLICY

The policy set forth in this document outlines the promotional policy of the City of Missoula Fire Department for the positions of Battalion Chief and Captain. It is designed to recognize accountability and fairness in the workplace. It is a policy that will encourage promotion of well-trained personnel who have the knowledge, skills, and abilities to provide safe and effective management & leadership in an environment of mutual trust and respect.

All promotions administered under this policy shall be based on education, experience, qualifications, skill, abilities, knowledge, initiative, training, and performance required for the position. The Fire Chief will post a copy of the promotional policy and process at each work site.

An assessment panel for administering the test will be composed of the Fire Chief or designee, the Assistant Fire Chief's or designee, a representative from outside the department appointed by the Fire Chief, the Human Resources Director or designee, the Union President or designee, and a Fire Officer from the Missoula Fire Department.

Components of the Battalion Chief assessment will include:

- Education/ Training (15%)- Candidates may receive up to 15 points for educational and training requirements. Other education & training including technician or EMS certification(s), National Fire Academy courses, instruction &/or program development, or

Additional assessment & testing components may be developed by the panel.

Scores will be totaled and candidates placed on a promotional list for Battalion Chief based on their scores. In the event two or more candidates have equal scores, they will be listed by seniority. When a vacancy occurs, the highest-ranking candidate on the current promotional list will be recommended to the Mayor for promotion.

Once a candidate is placed on an active promotional list for Battalion Chief. That candidate will be given preference over a Captain who is not on an active promotional list for Battalion Chief to fill an Acting Battalion Chief role. Acting Battalion Chief roles will be based on promotional ranking.

The promotional testing will be conducted within the first five months of every even numbered calendar year, e.g. Jan. - May 2010. The promotional list will be used to fill vacancies for a period of two years, commencing on June 1 of the testing year, e.g. June 1, 2010, and expiring on May 31 of the next testing year, e.g. May 31, 2012.

If the promotional list is exhausted during the two year period, a new test will be administered and a temporary promotional list established. This temporary promotional list will be valid until the next regularly scheduled test is completed and a corresponding promotional list established the following June 1. In the event a temporary promotional list needs to be established which would be in effect for less than 12 months (e.g. is established after June 1 of any odd-numbered calendar year),

If the promotional list is exhausted during the two year period, a new test will be administered to the next four most interested senior members and a temporary promotional list established. This temporary promotional list will be valid until the next regularly scheduled test is completed, and a corresponding promotional list established the following June. In the event a temporary promotional list needs to be established which would be in effect for less than 12 months (e.g. is established after June 1 of any odd-numbered calendar year), that temporary list will carry forward as the promotional list for the next two year period.

Memorandum of Understanding
Vacation Pick Changes
Between IAFF Local 271 and the City of Missoula

This memorandum of understanding (MOU) is made and entered into between the City of Missoula (City or Employer) and the International Association of Firefighters Local 271 (Union) for the purpose of amending Article 16.5.2 of the parties' current collective bargaining agreement (CBA).

As provided in Article 16.7 of the CBA, the parties agreed to negotiate additional vacation picks if the department increased staffing by 10% or more. The parties acknowledge that this has occurred, and thus the parties agree to replace Article 16.5.2 of the CBA with the following:

16.5.2 Two members from each shift may schedule vacation from January 1st to the 15th, three members from each shift may schedule vacation from January 16th through June 30th and four members from each shift may schedule vacation from July 1st to December 31st.

Due to five additional members being hired and tied to grant funding, there will be one additional pick (four picks total) from May 1st to June 30th, for the remainder of this contract (until 6/30/2027). This will be considered a "trial" to provide an opportunity for management to ensure safe and efficient operations can exist before committing beyond the expiration of this contract. The employer will engage in good faith efforts to negotiate the trial picks (fourth pick from May 1st to June 30th) into future contracts scheduled to take effect on 7/1/2027. If grant funding for the five additional firefighter positions is lost before the expiration of the CBA, the "trial" period (fourth pick from May 1st to June 30th) will be rescinded if the vacation selection process has not yet started. If the vacation selection process has started, the "trial" period will be rescinded the following year up until contract expiration when negotiations begin.

The City agrees to honor the May – December 2027 vacation picks even though the current contract with trial period ends June 30, 2027. This will allow members to schedule summer and holiday time vacations for calendar year 2027 at the higher number of picks from May 1st – June 30th. In the event a new collective bargaining agreement is not ratified by November 1, 2027 when the vacation picks are scheduled to start for 2028, the trial period additional pick (4th pick from May 1st to June 30th) will be rescinded

Finally, the parties agree to allow the increased picks for 2025 to begin July 1, 2025 rather than May 1, 2025. This is due to the newly hired staff transitioning to Union membership and assuming Operational shift assignments. The additional 2025 picks will be allocated by Seniority with each member getting up to one pick per round.

IN WITNESS WHEREOF, the parties hereto have set their hands and seal this 28 day of May 2025.

Memorandum of Understanding
Regarding Removing Wait Periods for Use of Vacation Leave
Between IAFF Local 271
and
The City of Missoula

This memorandum of understanding (MOU) is made and entered into between the City of Missoula (City or Employer) and IAFF Local 271, (Union) for the purpose of amending Article 16 – Vacation Time of the parties' current collective bargaining agreement (CBA).

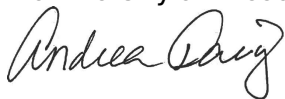

Per recent changes to the City of Missoula's Administrative Rule 4 – Human Resources Policy Manual, which removed wait periods for both vacation and sick leave, the CBA will be changed to align with these same changes. Changes to Article 16 are listed below:

Article 16.1

Each regular full-time employee shall earn annual vacation leave credits from the first day of employment. For calculating vacation credits, 2080 hours (52 weeks x 40 hours) shall be used for Staff personnel and 2184 hours (52 weeks x 42 hours) shall be used for operations personnel; both shall equal one year. Vacation leave credits begin to accrue on day one, offered each bi-weekly pay period. Staff are eligible to use leave upon earning it on a bi-weekly basis. However, accrued time usage (vacation, comp, or holiday) is discouraged in the first year of employment if it adversely impacts a member's training and professional development.

Memorandum of Understanding

Staffing Safety

Between IAFF Local 271

and

The City of Missoula

This memorandum of understanding (MOU) is made and entered into between the City of Missoula (City or Employer) and the International Association of Firefighters Local 271 (Union) for the purpose of amending Article 33 of the parties' current collective bargaining agreement (CBA).

BACKGROUND:

Due to the passage of the Fire Levy, the Fire Department has hired and onboarded up to twenty-six (26) new firefighters. As of July 7, 2025, those firefighters have completed their initial training and have been scheduled to work on shift. Concurrently, the Fire Department has added an additional emergency response unit. As per Article 33.1.1 and 33.1.2, the addition of an emergency response unit triggers a change.

Article 33 will now read as follows:

ARTICLE 33 STAFFING SAFETY

33.1 The parties recognize that staffing (on duty shift force) vitally affects the efficient and economic operation of the Department in providing the best possible service to the community and, further, that changes from the present minimum level do affect the safety and job security of the members of the Union, and therefore agree as follows:

33.1.1 The City of Missoula agrees to maintain a firefighting force of at least nineteen (19) firefighters on duty at all times. The City further agrees to maintain at least three (3) firefighters on each fire suppression company, one of whom shall be a Captain or Acting Captain; and to maintain a Battalion Chief or Acting Battalion Chief who shall be on duty with each fire suppression platoon.

33.1.2 Any emergency response unit shall have a Captain or Acting Captain in charge of that unit.

33.1.3 An addition of emergency response units and/or stations shall adjust these numbers through an MOU. IN WITNESS WHEREOF, the parties hereto have set their hands and seal this 1st day of August 2025.

Memorandum of Understanding
Between IAFF Local 271 and City of Missoula

This MOU is entered into by both parties with the shared agreement to make the following changes to Article 13 of the current Collective Bargaining Agreement.

1. Purpose and Intent

The intent of this Memorandum of Understanding (MOU) is to clarify the method by which flexing or offsetting of shift hours shall be computed when Operations Division employees of the Missoula Fire Department (MFD) are assigned to duties outside their normal shifts. This MOU also serves to clarify language specifying that Operations employees are on an 8-day work cycle.

2. Applications to All-Hazard Assignments

Upon execution of this MOU, the Missoula Fire Department Administration agrees that the provisions of **Article 13.2** of the Collective Bargaining Agreement (CBA) shall apply to all-hazards deployments. The Parties mutually acknowledge and agree that this interpretation ensures consistent and equitable application of Article 13.2 to such assignments.

3. Department Fiscal Neutrality

It is further understood that this agreement is entered into with the recognition that an established billing methodology exists for all-hazards deployments that ensures there is no net financial loss to the Fire Department as a result of applying Article 13.2.

4. Reopener Provision

In the event that no such billing methodology exists or is determined to be insufficient to keep the Department fiscally whole, either Party may reopen this MOU for the limited purpose of negotiating an alternative approach to address such circumstances.

5. Duration

This MOU shall remain in effect unless amended by mutual written agreement of the Parties or superseded by future collective bargaining.

6. Changes to Article 13

Article 13 shall read as follows:

ARTICLE 13: HOURS OF WORK

13.1 A block of work for Operations employees shall be two (2) ten-hour shifts and two (2) fourteen hour shifts in an eight (8) day work cycle.

13.2 An eight (8) day work cycle is the basic unit of the 10-14, four platoon Operations schedule, beginning with a ten (10) hour day shift (8 a.m. to 6 p.m.) and a successive fourteen (14) hour night shift (6 p.m. to 8 a.m.), twenty-four (24) hours off-duty, a second ten (10) hour day shift (8 a.m. to 6 p.m.) and successive fourteen (14) hour night shift (6 p.m. to 8 a.m.), and ending with one hundred twenty (120) hours off-duty time. The eight (8) day work cycle is then repeated. Operations employees shall be compensated at the overtime rate for all hours worked outside of their regularly

scheduled shifts. The City shall not flex, offset, or otherwise adjust an employee's hours to avoid payment of overtime, except as expressly provided in Article 13.4.4.

13.3 All Operations personnel are expected to work their assigned shift and station on a consistent basis. Shift trades that result in three or more consecutive shifts worked are not advisable on a frequent basis.

13.4 Upon receiving permission from the employee, the Fire Chief or their designee may temporarily assign employees in order to maintain emergency response capability, subject to the following conditions:

13.4.1 All temporarily assigned work over the regularly scheduled shift shall receive compensation under Article 14, Section 14.1.

13.4.2 All temporarily assigned work under the regularly scheduled shift will not result in a loss of regular salary.

13.4.3 When Operations employees are assigned to temporary light duty, the Fire Chief or designee may establish an alternate work schedule. Hours worked under such schedule shall be administered in accordance with Article 13.5.

13.4.4 By mutual agreement between the employee and the Fire Chief or designee, Operations employees temporarily assigned to training or administrative projects may use scheduled but unworked shift hours, resulting from being written off the schedule, to offset hours actually worked during the assignment. Such offsetting shall not result in any loss of regular pay. Any additional hours not offset are subject to compensation under Article 14, Section 14.1.

13.5 The work week for Staff employees shall be forty (40) hours. Staff employees shall work either five (5) eight-hour shifts or four (4) ten-hour shifts, as determined by the Fire Chief. With the approval of the Fire Chief, Staff employees may flex their work schedule within the same work week. Staff employees temporarily assigned to Operations shifts for work periods less than the Operations work week described in Section 13.1 above shall receive overtime pay (one and one-half (1-1/2) times their regular hourly rate) for hours worked over their regularly scheduled shift. Staff employees temporarily assigned to Operations for an Operations work week (as defined in Section 13.1 above) or longer shall receive overtime pay only for hours worked over the regular 10-14, four platoon work schedule (as outlined in Section 13.2 above).

IN WITNESS WHEREOF, the parties have hereto set their hands and seals this 2/2 day January 2026.
