Summary Description and rationale of project and funding sources:

City of Missoula retained a trail easement on 1505 E Broadway street to extend Ron's River trail and connect the existing paved trail to the west with the trail at Hellgate Park to the east. The trail construction should be done at the same time as the site development in order to maximize cost efficiencies, and allow for construction access. Cost estimates are based on 330 linear feet of 10' wide asphalt trail. It appears the owners of 1505 E Broadway will delay construction of residential units due to rising materials and construction costs, at least through 2022. Discussions with owners indicate they may seek a Trail Impact Fee development agreement for construction of the trail.

History & Current Status: Impact if Cancelled or Delayed

If the trail work is not completed with the site development construction equipment access would be limited and trail work will have to be completed with smaller equipment resulting in increased costs.
