Summary Description and rationale of project and funding sources:								
<p>These projects will either increase revenue at Splash or Currents or will decrease expenses via energy and water conservation. Generally these projects may also improve the facilities ability to meet reduced emissions goals. FY24: 1. Pool Blanket, Roller, Parking Spot for Pond - Splash - \$30,000. The pond at Splash is very shallow and has a large total area, much of this water is exposed to wind, sun, and cold nights. Installing a pool blanket system with a reel to gather the blankets will cause significant energy, water consumption and chemical savings (Estimated @~\$1,500/year.) 2. Consultants are under contract currently to make recommendations for potential new feature upgrades to the facility. Informed by consultant recommendations Parks will consider upgrades that may include: Shallow Pool Spray Feature Upgrade: Splash - \$200,000 - this upgrade will increase the attraction of the Pond at Splash and large feature slide upgrade.</p>								
History & Current Status: Impact if Cancelled or Delayed								
<p>Investing in Splash MT is an investment in the Missoula community. Projects outlined either decrease expenses via reduced water loss and chemicals use, thus conserve energy, or provide increased attractions, which lead to increased attendance and revenue.</p>								
Are there any site requirements/ Potentially Affected Interest (PAI) Coordination:
