

# City Council Proposed Budget Changes Form

Fiscal Year 2024

Council member name: **Daniel Carlino**

Short Title: Sustainable Building Incentives Startup Funds

## Please describe the request and community benefit

By providing one-time seed funding to start a new incentive program within the Affordable Housing Trust Fund to support energy efficiency, electrification, and renewable energy in affordable housing development this new request would leverage future grant funding, support both housing and energy goals, and build relationships across the development community. City funding resources would enable our climate staff to launch and pilot the program, building our case for additional grant funding to continue the work. This program is ready to launch as soon as we have committed funding. This program directly supports City Strategic Plan Community Design and Livability Goals: Promote communitywide sustainability and resiliency to reduce negative impacts on the environment and offset the impacts of climate change on our infrastructure, public health, and natural environment. Incentivize and encourage communitywide development of buildings that are energy efficient, all electric, and powered by renewable energy, and seek federal funding to implement projects that align with our climate action goals. The proposed program would collect detailed data on projects utilizing the program, outcomes like emissions reduced, people benefitted, and units supported.

## Please prioritize/rank this request in relation to the total number of requests you've submitted (ex. Rank 2 of 4)

3

## Does your request involve increasing staffing? (How many FTEs?)

N/A

## Requested budget amount

\$100,000.00
