

# **Missoula Urban Area Parks Use Survey**

Conducted by

Jim Sylvester

Bureau of Business and Economic Research  
The University of Montana-Missoula

This report presents the results of a Missoula City/County Parks and Recreation Department commissioned telephone survey conducted by the Bureau of Business and Economic Research at The University of Montana. The Bureau conducted the interviews during October 2003.

The Missoula City/County Parks and Recreation Department commissioned this survey to learn the opinions of a true cross section of valley residents. Persons testifying at public meetings, writing letters to the op-ed pages of local newspapers, or calling the various “hotlines” may not be representative of the entire population. In addition, the Missoula City/County Parks and Recreation Department was interested in whether or not there were differences between residents of various regions of the valley.

The questionnaire was constructed according to accepted principals and guidelines of survey research. The Missoula City/County Parks and Recreation Department provided the topics and some draft questions. The questionnaire was written by trained personnel at the Bureau and then reviewed by the Missoula City/County Parks and Recreation Department. The questionnaire can be found in Appendix 3.

This survey was administered by telephone using a Computer-Assisted Telephone Interviewing (CATI) process. Sampling was conducted using a Random-Digit Dial (RDD) process. The population sampled was all adult Missoulians who live in a household with a working telephone. This population should not be confused with all Missoulians, since it excludes households without working telephones, the institutional population, and Missoulians absent from the area during the survey period. The approximate sampling error for this survey is plus or minus 5.0 percent. This means that using this study design, in 95 of 100 samples a sampled mean would be within 5.0 percent of the population mean.

The survey was administered from October 5, 2003 through October 15, 2004. Of the 526 eligible respondents contacted, 434 (82 percent) participated in the survey. Table 1 shows the response rate calculation.

Respondents were selected randomly within households. The person answering the telephone had the same probability of being selected as any adult member of the household. If the selected member of the household was not home, an appointment was made to interview the absent respondent. Sampled individuals who were out of state during the administration period, and individuals with medical problems that precluded participation were ineligible. Telephone numbers drawn by the RDD process were ineligible if they were out-of-service, fax machines, or businesses. Numbers for which there was no answer were called repeatedly, during morning, evening, and weekend hours. Those numbers that still did not answer were ineligible.

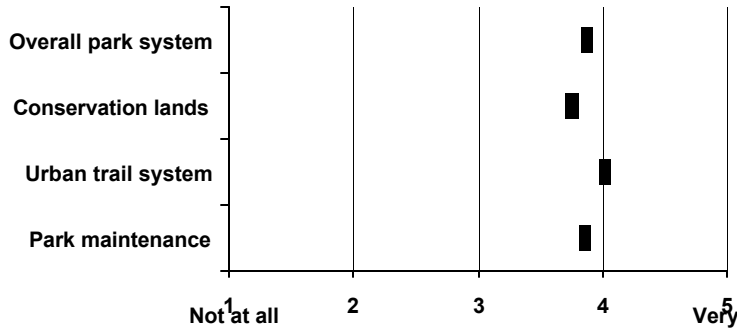

**Table 1: Response rate calculation**

Total sample	526
Refusals	76
Non-interviews	16
Completions	434
<b>Response rate</b>	<b>82.5%</b>

### Satisfaction with Missoula Area Parks

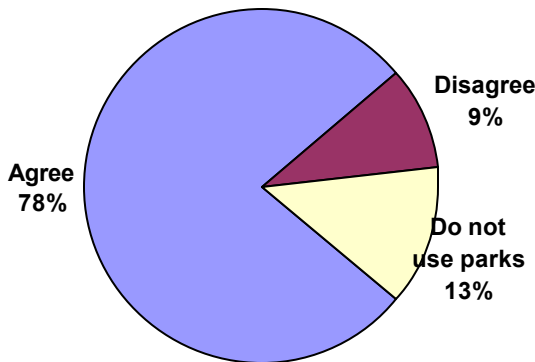

Overall level of satisfaction with Missoula area parks and conservation lands is high. The average satisfaction level was nearly four (Figure 1), on a scale from one to five where five is very satisfied, The detailed data are reported in Appendix 1.

Figure 1: **Satisfaction With Missoula Area Park System**

Respondents were asked if they had easy access to their neighborhood parks. Three out of four respondents agreed with the following statement (Figure 2):

Figure 2: **“I have easy access to my neighborhood park.”**

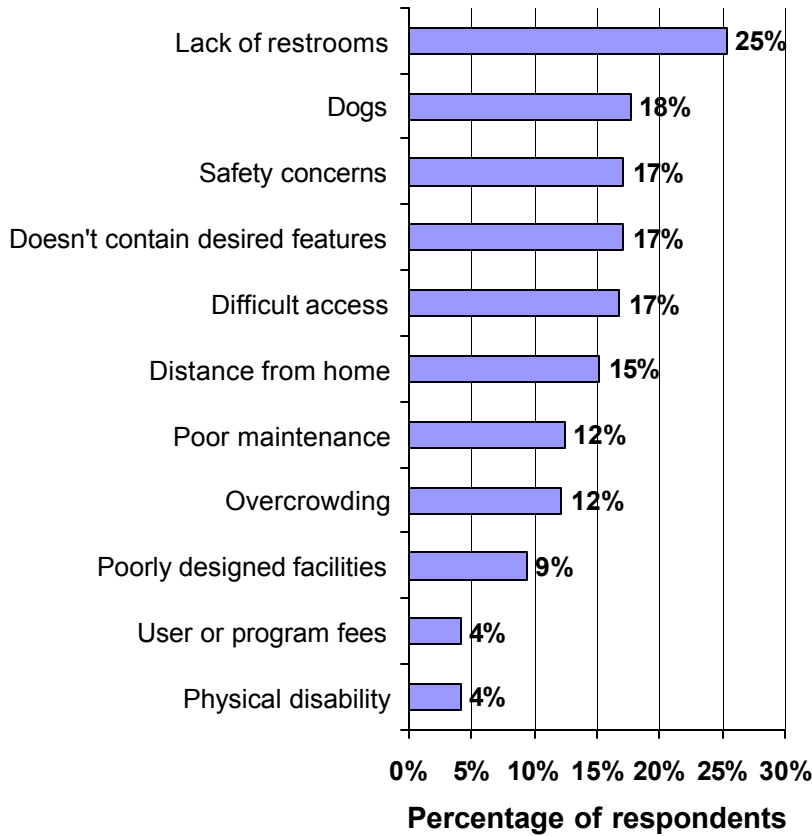

Thirteen percent of the respondents said they did not use the parks and could not answer the question.

Respondents were asked a series of potential reasons for not using the parks more (Figure 3). Lack of restrooms was reported by about a quarter. Nearly 1 in five mentioned dogs running loose and safety concerns because of rowdy behavior by others. Distance from home, difficult access and several other reasons followed. User and program fees do not appear to keep Missoula residents from using the parks more. Physical disability was mentioned by about five percent, however this number may be low because some respondents did not answer all the questions because they said they no longer use the parks. Many of these individuals were elderly.

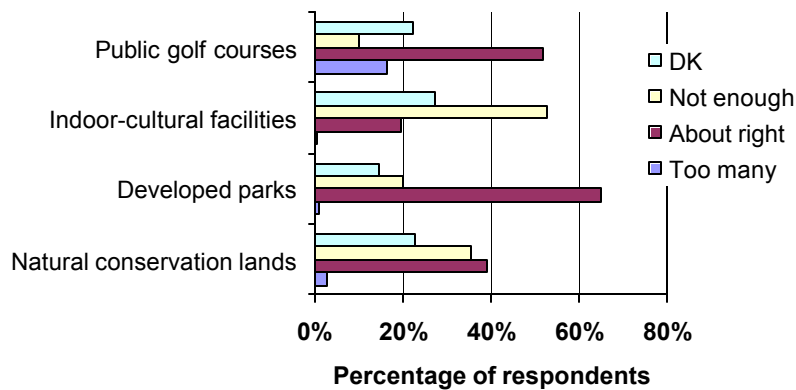

A follow-up question asking for anything else preventing them from using parks more resulted in comments about restrooms. These comments can be found in Appendix 2.

Figure 4 shows how respondents view the number of different types of public parks. A lack of indoor- cultural facilities jumps to the top. Respondents generally think there are enough developed parks and public golf courses. There appears to be a somewhat mixed opinion regarding conservation lands.

**Figure 3: Reasons do not use Missoula Area Parks more**

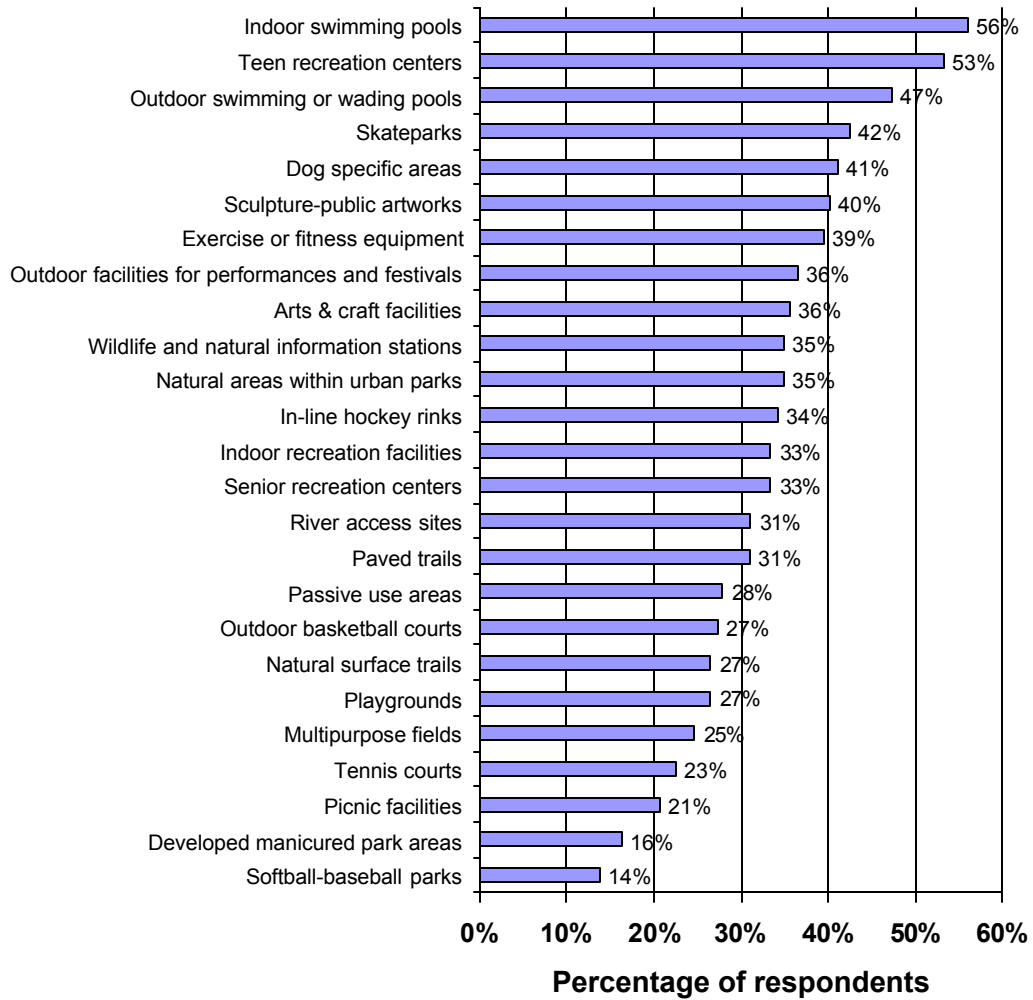

**Figure 4: Does the Missoula Area have enough of these types of parks?**

Respondents were then asked a list of park facilities and features. Figure 5 shows the percentage of respondents saying there were not enough of various features or facilities. Swimming pools both indoor and outdoor were mentioned as lacking by roughly half the respondents. Teen recreation centers were mentioned by a similar percentage.

**Figure 5: Not enough of these facilities and features in Missoula area parks**

**Use of Missoula Area Parks and Conservation Lands**

Passive use was the most common park use by Missoula valley adults. Most adults only used the parks a few times during the last 12 months. Figure 6 shows intensity of park use and Figure 7 shows how the parks and conservation lands are used.

Of the Missoula households whose children used the parks (Figure 8 & 9) swimming (38%) was the predominate activity, followed by walking and hiking (36%). Soccer (28%) was the team sport most mentioned.

Figure 6: **Adult Use of Missoula Area Parks**

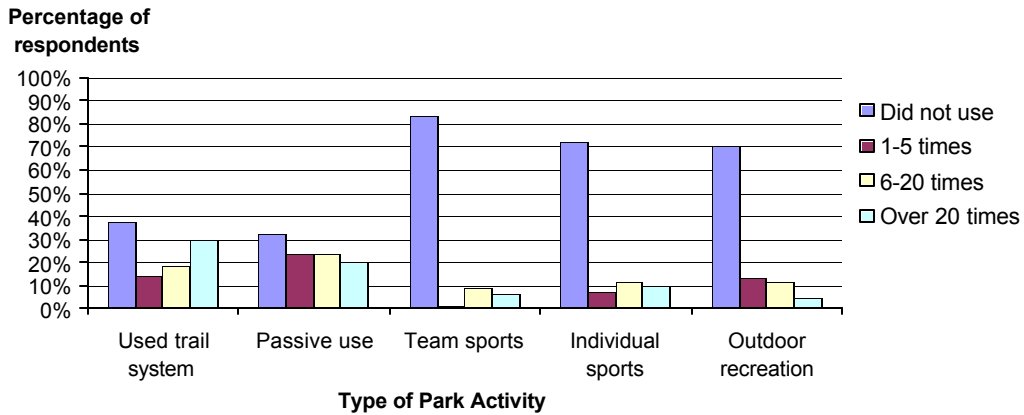

Figure 7: **Adult Park Activities**

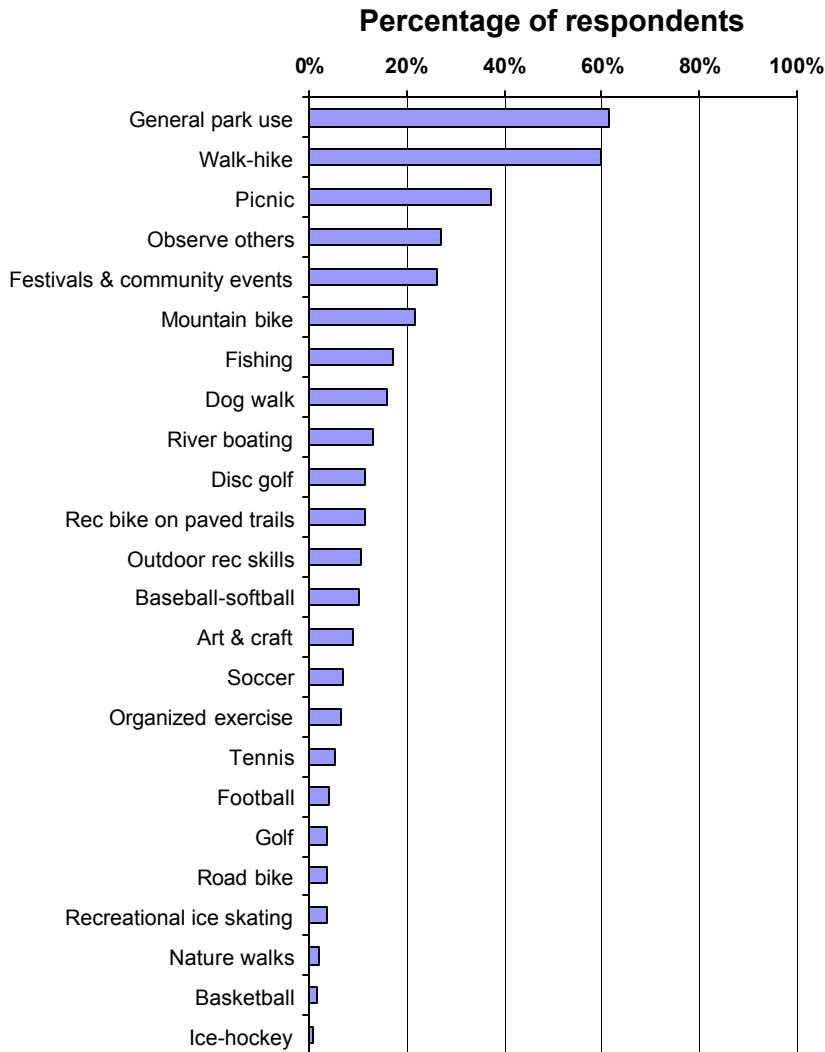

Figure 8: Children in the parks

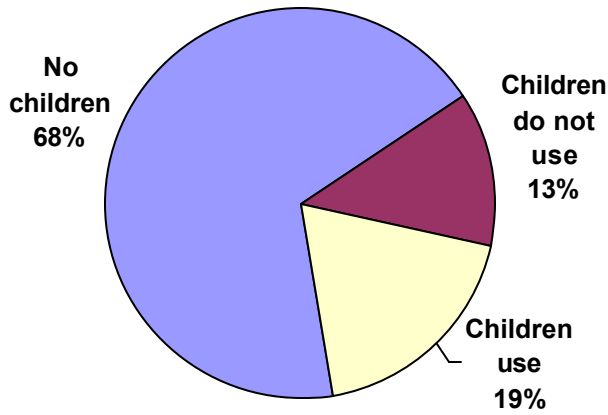

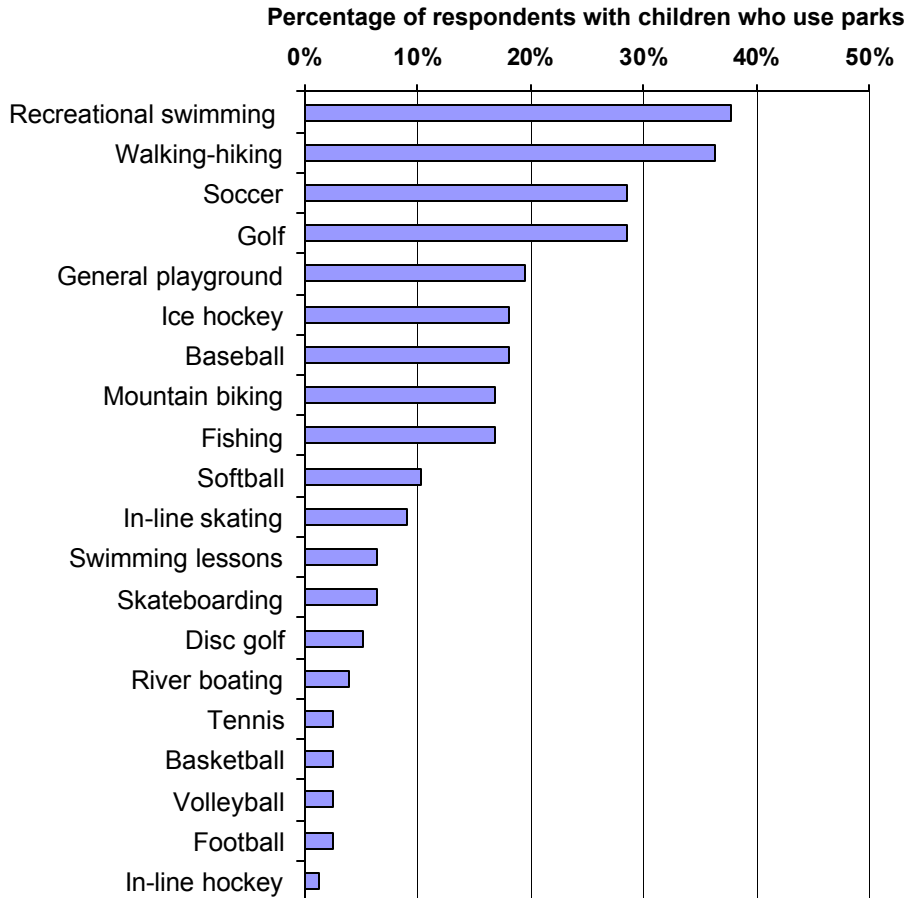

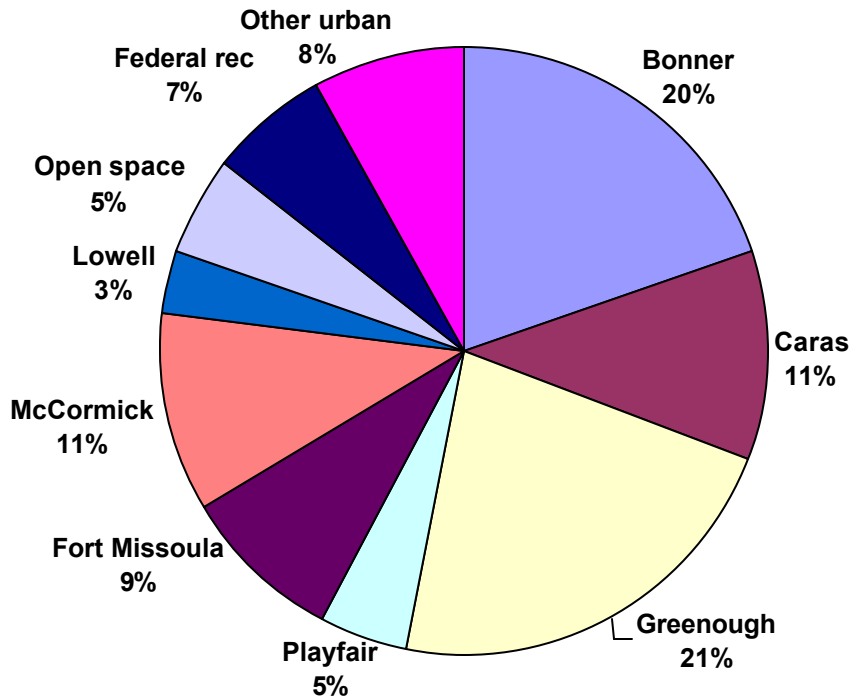

Figure 9: Children's Park Activities

### Favorite Missoula Area Park

Greenough and Bonner Parks are Missoula residents favorite parks. Caras and McCormick follow. Respondents like Bonner and Caras parks for the activities available. They like Greenough for the wildness and trail system. The reasons why respondents like the parks are listed below.

Figure 10: Favorite Missoula Park

### Bonner Park

- Kids like the park
- Because he knows the park
- Because there are lot of different things you can you there. Hacky sac, listen to music etc.
- Close to home
- Close to home and a lot to do
- Close
- Huge playground
- Large and it has a lot of room for dogs to run around and there's a children area and tennis courts and it is pretty
- Like the access and i like the band concerts
- Location convenience
- Open ness, equipment is safe for all ages , like to have the entertainment there
- Swing sets

Wide variety of things to do, concerts, picnic area  
Band shell, activities for kids, centrally located, trees  
Close to home  
I like it because it is very diverse  
It has everything you need in a park right there.  
There's several things to do there  
Very big and is away from busy streets but it needs more trees  
Very little trees and good mix of empty space and developed areas  
We used to live close to it and it has a good facility.  
Large enough to do activities there  
Really big and easy to get to offers a lot  
The concerts that come there and close to home.  
The open spaces  
The pool and the people that sit out there  
All the features it has for kids and families  
Kids were raised around there and its open and nice  
Summer concerts and wading pools (which need to be open at night because on summer nights it doesn't get dark till nine  
Turtles  
Variety of activities good for different ages, not so concerned with questionable behaviors of other park users  
A good example of multi use park for a fairly small space  
Big, roomy, not bunched together kept up well  
Can do just about anything  
Convenient and can be rented to hold group activities  
Family friendly in a nice neighborhood and is accessible  
Good for children  
It's always clean and room for lots of people  
It has a little bit of everything for everyone  
It is spacious but not on a busy street and has a good variety of things for everyone  
Like the concerts  
Like all the facilities for the kids  
Picnic area  
The children's equipment  
Variety of things to do  
Big, and so there's lots of room to spread out big plaything  
Helped build part of it.  
Is the play equipment for every child's age.  
Spacious and good kids equipment  
The concerts  
The concerts that they have there  
The facilities.  
Wading pool x  
Because have big playground and band shell  
Because of location and the activity there close to home  
Because the basketball court, plenty of room to play baseball, football and there are tennis courts. Also playground for little kids.  
Close to home  
Close to home nice swing sets, basketball and tennis, and wading pool  
It's close to where i live  
It's in a good location and good community standing  
Its just close to my home  
Just like it  
Large and has commanding views, it's in a neighborhood also so the streets aren't so busy  
More to do for the grandkids  
Open areas not crowded  
Performance space x good children's play area  
The children friendly play equipment  
Quite and not a lot of people, good for little kids

## Caras Park

The carousel

A lot of things for the kids to do

Carousel Good location

Convenient

Dragon Hollow

Get to walk out of my back yard of work and eat there

Have all kinds of public activities

It's by the river and it's downtown. It's actually on public land, not around houses so I'm not interfering with individuals

Its beautiful location

Its nice

Like it because it's clean and it has a lot of options for different kid ages, Carousel it would be nice for them to add an amusement park aspect too many homeless

Like the carousel

Lot of stuff to do festivals by the river half natural half architectural

More child oriented

My son likes the playground

Next to the bar , contractor, helped to build stairs

There's a lot of activities going on X I like to carousel, also I like to go to dinner in the park

Well maintained and good trail systems and don't have to worry about getting mugged

Wide open and sunny and it's a good place to get exercise within the city, but I don't like all of the unattached dogs I wish that was patrolled more

All the live music that they have

Carousel

The carousel

Wednesday in the park and the other venues

The trail by the Carousel

Close to down town

Down by the river

It's maintained well

River walking availability to downtown

The carousel

The lunch activities during the warm months activities

I like that Caras is by the river. Any park that is by the river is desirable.

Places for children and adults do a good job and activities going on

Activities they have there

Carousel and playground

Good facility for all kinds of outdoor activities, by the river, centrally located

Its charming and i think the carousel is nice, we

The activities that are there all the time

Kids like it

## Greenough

Almost feel like your in the wilderness instead of town

Because in more natural than the rest

Because it is a natural park

Can keep on going

Close to town but still natural

Good mountain biking.

It's got clean air the trees, the water Being able to take the dog with

It's nice and spread out

It's quit and close to natures way

Its kind of wooded/city area, place for the dogs and kids, amuse yourself.

Its not crowded x its pretty x easy access to get to

Just the one I most frequent, not really familiar with the others  
Kept it so natural, wild, cheaper to maintain  
Like the fact it's still somewhat in natural state.  
Like the way it feels, positive energy x the land and river she's a witch and so its all positive in there.,  
quiet further in.  
Location easy to get to like the trails  
Natural  
Not that many people  
Pretty natural not as developed as some  
Sort of natural, wish they wouldn't reroute the river x nice park for picnic, bird watch, kids can play  
The fact the creek run through it and the trails are nice  
The natural area  
The natural setting  
The natural setting it's relaxing  
The natural wild kind of setting, trails that meander thru the wild parts x size, big  
The naturalness of the park  
The trail system, small and easy access  
Trails, the naturalness of it, size  
Usually empty like the river  
Very accessible, wild qualities about it, downtown area  
I like Greenough because it's natural, not terribly developed. Are facilities to have a picnic and there's  
trails and a campfire ring.  
It has river access long trails and trees and not right in the middle of town so less crowded  
Like walking with the water, access to the creek  
Scenery and paved trails  
The naturalness of the area  
Was close to home  
Amount of green space and natural setting  
B/c its more natural and on the outskirts of city  
Grew up there and know the area  
Like the trails their  
Pretty, nice place to take a walk, close to the water  
The river goes thru it, the benches and the view  
The stream along side it and winds around the wilderness  
Trails and beauty of it  
Not crowded x freedom to be out in nature  
Beautiful  
More natural the trails  
Because it's close to home.  
Get away from noise X close by,  
I like it because it's more natural, with trees and water and it's quiet.  
I like to walk and it's a great place to walk, its beautiful  
It's a beautiful place to walk  
It is natural and there's a nice trail and the creek  
Its so accessible has the creek and has good bike access  
Just quieter less people  
More natural and a lot of walking area  
Nice mixture with natural setting with urban  
Proximity to rattlesnake creek and the layout with the trees its just a nice place to go  
The natural area and trails are peaceful  
The privacy and tranquil trails x like the creek running through it  
There's so much nature there close to town, and preservation. They have the information signs. It's  
wheelchair accessible. It has different trails as well. It keeps its habitat intact. It provides an important  
corridor for wildlife.  
Not a recreational park its one where you can walk around and enjoy the scenery  
Quiet x nice to walk in x peaceful x animals  
Because it is more natural and the creek.  
Close to home, Pretty and huge for get togethers  
It's more natural

Nice place to walk by the creek  
There is less people their And the natural way it is  
Trails to walk on and being next to water  
Trees and the paths going through the trees and its not crowded and it smells good in the spring  
Because of natural setting close to town  
It's a nice mixture of dirt trails, paved trails, you're by the creek, picnic and playground areas  
Its like going to the mtns locally, the accessibility has been improved  
Its natural and not too crowded  
Seems more natural of a setting x big  
That it wild but cared for the plant diversity its peaceful but in the city. But needs more open  
bathrooms.  
The trail system  
A lot of nature and not a lot of human interference x be able to mtn bike and take my dog there

## Playfair

Multi-recreational  
Like to walk there  
The walking trail  
Because it has everything  
Close to home, has baseball field, a swimming pool and everything needed  
The tennis courts The soccer fields  
Multi use  
Well kept and lots of facilities, can go swimming and picnic and not as much vagrancy  
Like across from street, pretty X  
More age appropriate for her kids ages  
Multiuse area could be maintained and landscaped a little better  
They have a jogging trail Many things you can do there Good parking easy to get.  
Close by, and trails  
It is a pretty area with big trees, walked when my kids were there for baseball.  
The natural setting with the wildlife in it  
Close to house and has a real nice walking path, need to finish path part by the swimming pool

## Fort Missoula

Enjoy the walking trails X using the fields  
I go there primarily to walk my dog in the morning but I like to watch sports there, and generally there's  
not too many people there when I use it in the morning and evenings.  
it's a big park X easy access  
Size and isn't crowded  
The size, the variety of activities that it can handle such as soccer, football, tennis, some basketball,  
and location.  
The trail system  
Open areas  
Never crowded, like walk and run over there  
Close by  
Close, not that congested; lots of room  
Its handy to where I live and has a nice walking path  
Openness  
The openness X  
Trails and variety of things to do  
Lost for children to do & well maintained  
Walking on the trails, picnics and watch games  
Combined manicured park land, river  
The open spaces  
Close to work like the trail system and area in General  
Good surface, know how far going, and safe  
Maintained and clean and enough stuff for kid to play on

### Openness

Open x not a lot of regulations out there  
The natural setting  
The open space  
The trail that runs through it  
The walking  
Variety of activities  
Walking trail. X spacious  
The natural area

### McCormick

Down by river nice area  
Easy access and non motor vehicle access  
Good place for passive use  
Got everything to offer  
McCormick- I just like the area  
Size and variety  
The river trail  
The trail that follows the river  
Trail system along the river trees etc.  
Very pleasant place to be having it along the river  
Closest to my house, trail system , has everything.  
Incorporates many different uses, urban area, ample parking, multi seasonal, summer programs  
On the river, have access to downtown, the pond, the ball field, and other things, rural enough  
Can walk dog down there  
Like to swimming, fishing, baseball, Frisbee, right in town  
Location, outdoor swimming pool X the interconnectedness with the trail system  
Multiple uses, fishing, pool, field areas, assortment of things going on, lacks playground things for children  
Spend most of time there  
The trail that runs along the river and close to home.  
Because I can get to the swimming pool  
Because of the quantity of trees the river All kinds of thing for children to do  
Because there's basketball over there and it's not too far from where I live and it's not too crowded.  
Plus they've got the baseball field there too.  
The park he grew up around  
Close to water & easy to get too  
For the baseball field  
Open and variety of activities  
The softball fields playground pool  
It offers something for everyone  
Like the skating in the winter pond good all year round  
More for children to do  
They have wide open spaces for throwing things & Horseshoe spaces  
Because its sort of private and it has nice facilities to rest and walk.  
Nice by the river, pretty good size  
That it's not near a busy street less people use it by the river And can bring the dog  
There's a lot of things to do

### Kim Williams

The length of it could develop the other side one for bikes and one for pedestrians  
It's peaceful, there's the native plants, there's places to sit, very meditative with the native plants and the river, and the landscape changes, there's variety.  
Mix of mostly natural high traffic use, close to neighborhoods, Greenough also, until went downhill  
Right along the river and there's trails and its kept up nice  
It's close too where they live, well lit at night and good for the family.  
Great for taking walks, well-lit at night, seems safe, friendly  
Nice trail, easy, pretty, well-maintained

Big and scenic, covers a lot of area  
Near the bark park  
I ride my bike on the trail. Especially like being near the river and how long the trail is.  
Look out over it from office and it really makes downtown beautiful

### Mt. Jumbo and Mt. Sentinel

Nice to bike and hike trails so close to the city  
Hiking areas open spaces  
It's the only one i know  
The exercise plus a chance to continue it on as far as you want to go and most of all the view, with plenty of area to get away and sit  
The fact that you can hike up the "m"  
Used to hike it every day, when i first came here, i liked the view  
Fun place  
Good uphill walk and the there's no dog leash laws  
The walk up the hill

### Other urban parks

It's a Has a really nice area  
Grew up there  
The equipment  
Like the closeness of it, seems to be geared towards kids, right over by the school  
The variety of activities

Huge trees especially in fall, residential area is nice  
Watching the flowers and girls  
Convenience  
Decorated nice kept clean x the nicest park in Missoula  
I like it because it is versatile and beautiful  
Likes to have a good cry there  
Pretty peaceful well kept  
Roses and memorial sculptures  
See it on the way to work  
Has playground equipment, paved trails, fenced in, dog park is fenced in  
Because it is good for the children  
Kids really like the park : bit enough for adults to play  
Has a lot to offer to children  
Nice for little ones kid proof  
Stuff to do  
Like the way they arranged it and everything and all of the people built it up and it's nice for the kids  
They call it the Castle Park and enjoy all the features of that park.  
Location open grassy area  
Really nice park little bit of everything  
Has water in summer great facilities for older and younger kids  
The kids equipment and wading pool, open field  
Water in summer, playground canopied tables  
Kids like it  
Watch kids have fun and centrally located.  
More of a community park Up linda vista lower park  
We're really fortunate in the variety of parks that we have.  
Like to golf, need another golf course  
Trails  
Easy access to fishing and hiking, very good river access for boat launch  
It has access to the crick, and my dogs seem to enjoy it and it is very restful. And it's convenient  
Convenient like the creek Pleasant  
Very peaceful  
Access  
Unusual , open space, unimproved aspect

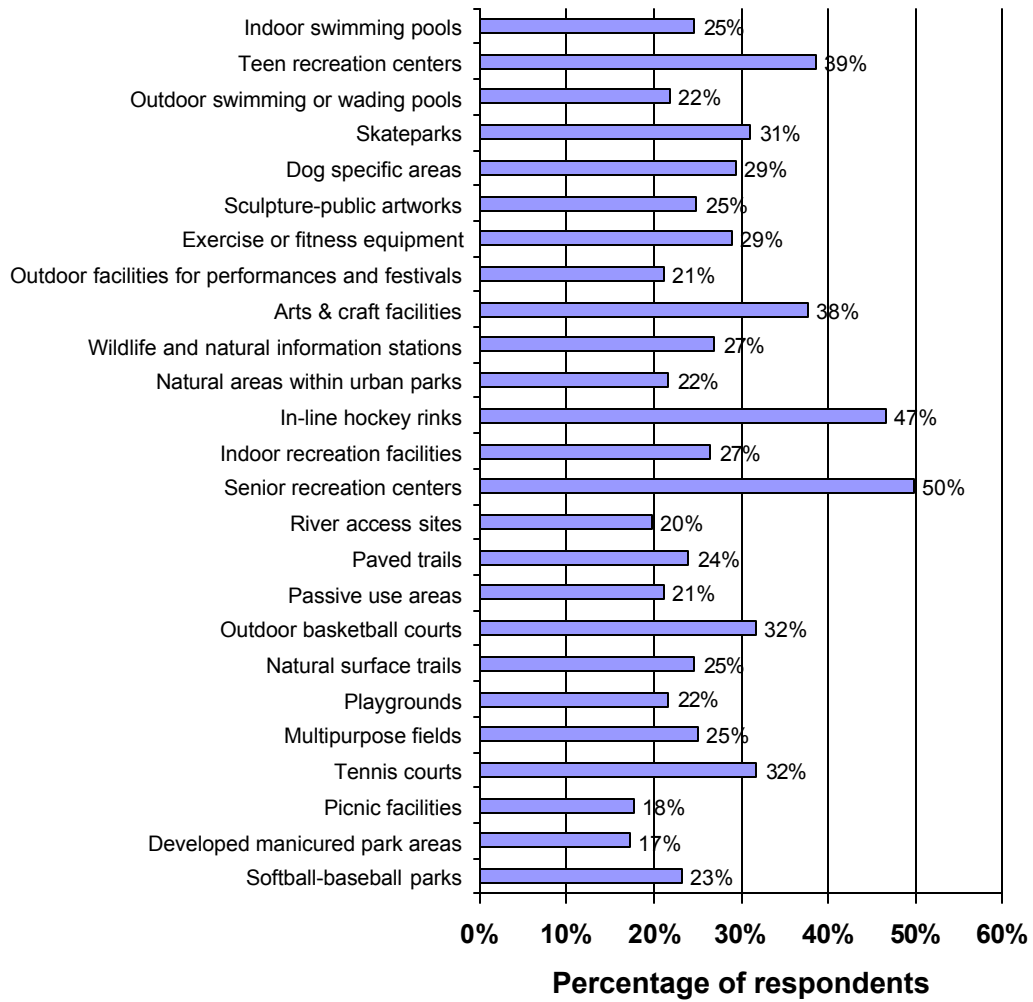

## Pattee Canyon, Blue Mountain, Rattlesnake

The multiple use and multiple season use of Pattee Canyon.  
Easy access to house and its pretty  
Folf trails, mountains  
Not a lot of people, I can take my dogs there  
Lots of picnic tables and not too crowded, good place to bring the dog X  
The design of the trail and the surface not rocky or loose

Blue Mountain- what it has to offer you can go up their and play Frisbee golf, motorcycle area, foot trails.  
It's got an extensive trail system that's easy to follow. Can go out there and spend the day. It's a bigger area and can ride a bike for several hours.  
Because I hike around in there a lot and you can get away from buildings but still see the city itself  
Lot of open area x same with patty canyon  
Good walking trails  
Easy access to river nice area

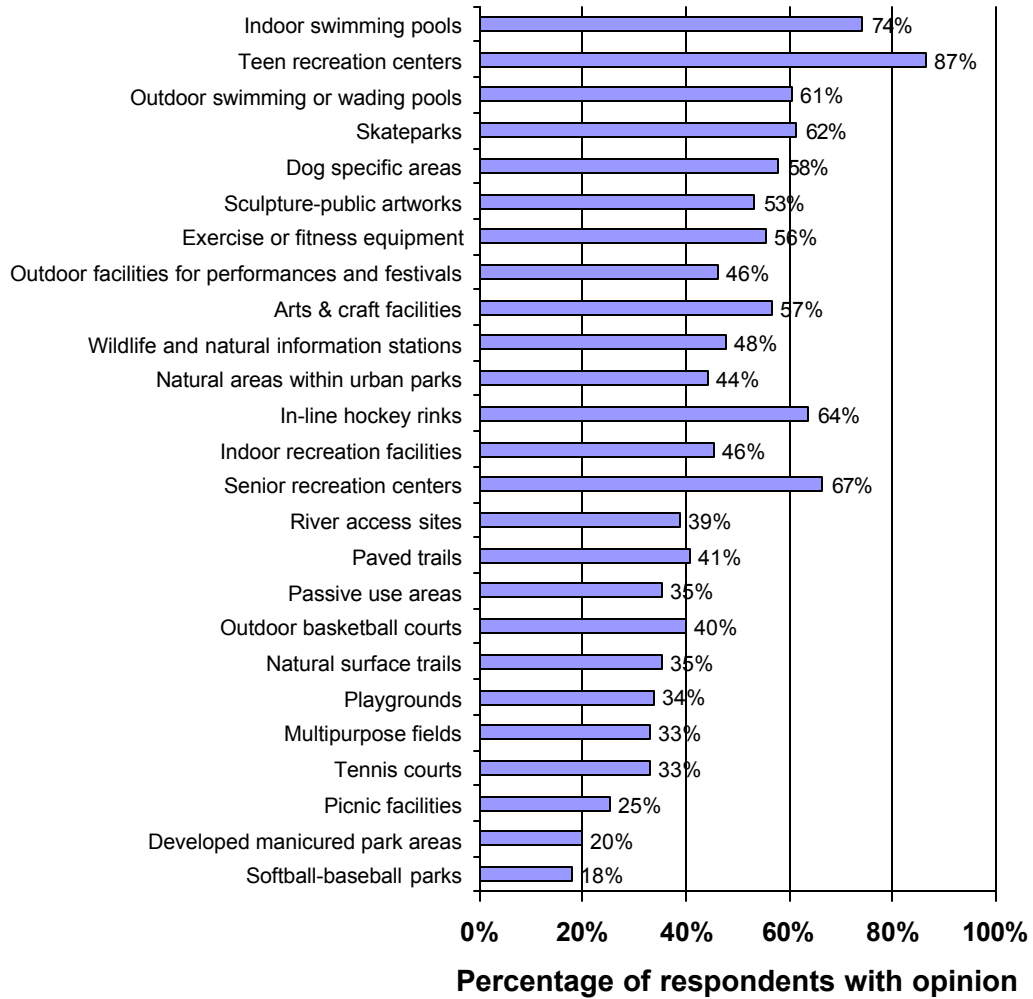

Like to walk up there, swim in the swimming hole, walk dog  
More natural more opportunity to get away from people X  
Run and bike there  
Can take dogs and wide variety of terrain  
Like the area and being able to walk the trail  
Lots of good trails for mountain biking  
Number of trails  
Love that it rattlesnake cr. Is a part ofit natural feel to it, not just expansive grass, natural habitat, multi-use  
Gorgeous  
Wildness and extensiveness  
Close to home

### Don't know about these facilities and features in Missoula area parks

### Not enough of these facilities and features in Missoula area parks

# **APPENDIX 1: DETAILED TABLES**

**APPENDIX 2**

**OTHER COMMENTS**

## COMMENTS

Would only support an increase in property tax for outdoor swimming pool  
Would love to see a really nice swim facility with integrated passive rest areas and lawn or benches for people to sit on when their watching their kids. Also have different sized pools for the children of all ages. Lots of trees would be good as well  
Would like to see the river front left like it is for public access  
Would like to see more bike trails  
Would like to see a civic center. Plenty of parks in Missoula.  
Would like to have a neighbor park in the Orchard Homes area  
Would like more bike trails to make it safer  
Wish we could link the trails together more, for safer ways to commute.  
Wish they wouldn't make so many rules. Think they need to stop making a rule about when you can climb Mount Jumbo need to keep public informed about votes for things  
Wish there were more  
What we have is good here in Missoula.  
We spend enough money on them as it is  
We really need to get better parks, they're terrible, there's not nearly enough places for me to take my son  
We need more open space before it's all developed,  
Used trails for cross country skiing  
Urban bike path, more dangerous to walk and bike ride during busy times.  
To him they look fine  
Think they could do better x doesn't understand where fees go to  
Think the Parks are well run buy the parks department with the funding they receive  
They need to make the picnic areas with more shade so there's not as much sun in the evening time  
They need to limit schools from using park areas for play grounds. Need to monitor wading pools and get good guidance for adults about them. The wading pools need to be maintained better. All dogs must wear a leash law. Need more passive areas. Need more  
They need to get rid of the weed infestation because it's causing problems, especially Spartan, the dandelions get all over and into my lawn.  
They need to be maintained better  
They do a great job keep up the good work  
They do a bang up job for the limited budget they have.  
They've done a wonderful job, I can remember when there was nothing down there, maintenance is important. More sculptures along river front park would be nice.  
They're nice  
There should be a trail connecting out to the Bitterroot valley area and leading into Missoula by Buck House Bridge  
There are a lot of parks that we have and need to use money maintaining them so every one can use them and not spend more on things like open space and MT Jumbo which no one can use. The facilities in the parks need to be better maintained.  
The weeds and maintenance x opposed to buying more land like on Mt Jumbo x  
The park near her house is really skuzzy all it has is swings and bball courts its by the YMCA  
The open space concept of the parks  
The new aquatic center sounds like a good idea to me.  
The Missoula parks need to be maintained all year long  
The Missoula parks need better maintenance done on them. Maybe use prisoners to clean then dress them in pink so they won't go any where.  
The grass needs to be taken care of better get rid of the thistles in the parks  
The city spends way to much money on things like this we would prefer you don't call again

The bikes should be more regulated there should be a training course about bike safety and use, the bikers should respect the other people on the trails more and there should be a limit on how fast they can ride their bikes.

Support anything that will improve the parks system because that helps improve the integrity of the neighborhoods their in

Something available when weather is good to get seniors out more day and nights along the river trails or parks

Satis4 If going to renovate or put in a park (like water park on Mullan) need to assume it will take some time and secure the site adequately for safety of children curious about what is going on. Favor1 Doesn't have a favorite park because he doesn't h

Really like the mt sentinal , mt jumbo what they done with it. More in and out closer to town on the Clark Fork river

Really like having the parks for everything

Pretty happy with them

Pave more trails for skating

Parks Dept are doing great job with the resources they have I would love to see more large scale parks like Rattlesnake and McCormick on the valley floor if possible. Really want an indoor pool

Overall there fantastic

Overall the parks are above average but need some improvements and additions I.e. More supervision, perhaps in the summer have more cops riding by on bikes or SUV's so people at the parks feel safer

Overall it is good but could be better, there's not as much as I would like for smaller children to do in them, and I wish there were less homeless people in the Caras Park, but that is it, overall I really do like the Missoula parks, they are very nice.

Not enough for children to do.

None that I can say cause it wouldn't help to tell you about them

No, we really like them, get a lot of use of them, we go to a lot of them especially since we had our son.

No, seen an improvement Linda Vista, Mariln Park is wonderful

No, pretty please with it. Some part could use attention, lawn end of summer.

No, just happy

No, I love it think it would be a shame for the city not to invest more money into it. Team sports Ultimate Frisbee 6-20 times

No fairly adequate and were happy with them so far

Needs more handicap accessibility

Needs a lot of help more funding

Need to upgrade the public pools

Need to take care of the weeds

Need to keep the dogs better organized.

Need to extend bike trails further west

Need to be open to the public later

Need to be less wasteful when building and maintaining them.

Need some bathrooms on the trail system like Perry Trail.

Need more parks on the west side

Need more park areas the choo choo train park in Bonner

Need more maintenance funding x need more equestrian connections x providing good parks in areas that don't have them and planning for parks in areas to be developed

Need more enforcement of dog regulations x More cleanup after dogs

Need more indoor hockey rinks

Need more facilities for youth and more areas for dogs to be free from leashes

Need more commuter trails, its dangerous riding on the roads Use 3A Ultimate Frisbee

Need more bike trails

Need better children facilities

Need a civic center in Missoula for community events(the arts), instead of having to rely on the university system to hold these events, many towns of the same size and smaller have these types of buildings

More strict control of dogs maybe even ban them in some parks have some parks that are for dogs and some that are not for dogs. More barbeque pits as well and more parks with covered pavilions. Would like to see an all encompassing park as well with a  
More in South Hills south of 39th Street  
More for teens to do X  
More "fun runs" organized runs in parks and on trails.  
Missoula has done a great job as far as the number of parks but now is the time to keep up on the litter problem, esp. On the river banks and such.  
Maintenance needs to be a little better  
Maintaining and supporting the pools and other things for kids to do  
Maybe have more info about then more direction signs  
Love the trees in the fall the beautiful colors are just wonderful she paints art work of what she sees  
Love the parks  
Like to see them put baskets on all the Folf holes,  
Like to see more things for teens to do, more projects, some access to Mt. Jumbo in the winter time.  
Promote some more cross country skiing in the parks.  
Like to see more skating Parks.  
Like to see better turf managements soil compaction and irrigation  
Like to dog leash law more enforced on the river trail and city wide.  
Like the Rattlesnake Park trail system  
Like the natural aspect of Missoula  
Last time I played tennis the courts were deteriorating badly. Need to fix the pool at McCormick. It would be nice to acquire more land around the baseball stadium for park space.  
Keep up the good work!  
Keep up on the litter  
Just so access to the parks for kids and child safety in the parks is a god thing.  
Just glad there here  
It's Wonderful!  
Indoor pool  
In memorial rose park and along Kim Williams trail they have those metal dog boxes for cleaning up after the dog with plastic bags for dog poop, I think that's great and they should have those in more of the parks.  
In favor of having a nice developed park that has many amenities such as paved trails (their good for people with strollers), sports fields, playgrounds and sitting areas  
I think you guys should designate an area for remote control air planes, for flying them. There's not a really good place to do that.  
I think we have sufficient parks and activities in Missoula.  
I really think there should be more indoor swimming pools.  
I live in an apartment and the park by it doesn't have anything to do it's just a sandbox, so I don't think it should be allowed to be called a park.  
I like them. Most parks are 15 minutes away. At least we have what we have.  
I like the Missoula parks.  
I enjoy it  
I don't use the parks  
I do not agree with closing MT Jumbo during the winter. Leash laws need to be enforced or taken off the books. Dogs being unleashed in the parks is a problem. The most important things that Missoula needs to do is have an enclosed ice rink. Every public  
I believe they're doing a pretty good job. Taxes: Missoula property taxes are already so high land is way overvalued. I don't know how to fund more parks.  
I've lived in several states in the past few years, and this system holds its own  
Have never used them Where are the parks in Missoula?  
Have more nature trails. Nice to have a place to take dogs without having to be on a leash  
Generally would like to see the riverfront developed on both sides

Franklin park is in a lower income neighborhood a lot of undesirables and teenage partiers hang out there it needs more patrols for a safer environment.

Feel very strongly for a community system for active and passive performances. Upgrade to the aquatic facilities

Favor1 Doesn't have a favorite it depends on what you are going to do Fac11 Outdoor swimming or wading pools? Need more small swimming pools so kids don't have to be driven to them. Great thing for a kid is to get on a bike and go to the swimming pool

Facility 17 not identified well enough

Expand the river front trail and connect it up and extend it especially for bicycle riders. Think they could go quite a ways west with it. I've been to a lot of places that have a lot of trail systems. Missoula has the most extensive trail system in a small city

Don't want a baseball field

Don't use very often

Don't go overboard creating too many parks otherwise you will lose what Montana is: open spaces and natural beauty

Don't use parks much so hard to say

Don't know about the parks

Don't build any new facilities until you can maintain what you have. Fac8 The parks shouldn't be providing exercise or fitness equipment. Perhaps in one park as a class.

Doing a great job

DOGS!!! Dogs and dogs

Depends on how much tax increase is

City does a good job need more resources, the county is users pay system and the county parks could really use some upgrades

Better signs in the park for trails and reminders for dog people

Better maintenance of the open fields

Bark for more, what they have is good, don't use them too much but observation is positive.

Access to Blue Mountain is difficult by car or bike from town. The one way bridge, McClay Bridge really concerns me. Not enough owners pick up after their dogs. There are not enough clean picnic facilities. In general, I think Parks and Rec does a good job

A Petting Zoo

## **Other reasons do not use parks more**

Younger aged play equipment

You go to certain parks for certain things and can find just about anything you're looking for. So in that sense i don't think there's anything missing.

When you go to the park with children and they have to go to the bathroom and there are no bathrooms then we just have to come home. When the bathrooms are locked in the spring and the fall it's the same as not having one.

Trails in the rattlesnake where the side trails break off from the main trail are not well marked so it makes it hard to hike up there and know where you're going and not get lost. We got off the main trail in saw mill gulch area and didn't know it and g

Things for babies

The bathrooms & water fountains.

Swings and merry go rounds, picnic tables and slides, used to seeing more playground equipment

Sometimes the restrooms are not open and sometimes there are no restrooms and there are drinking fountains

Something more than just a place to go and hang out in

Some parks that are more geared for older vs. Younger

Size not large enough, not enough of every types of parks

Pretty much everything including clean bathrooms

Playgrounds, tennis courts & picnic tables.  
Play features in some  
Pave more of the trails  
Parks, trees  
Park lights & bathrooms  
No complex for children in Mullan road area  
No baby swings in some of the parks  
Nicer quality park area, parks that are more all inclusive like the one they were going to build at ft  
Missoula. ponds for swimming would be good  
Need running water for the parks systems water fountains and bathrooms with running water  
Need more for bigger kids to do  
Need more areas for baseball  
Need cleaner bathrooms and better water fountains  
Multi use area- improved  
Most everything  
More water fountains all year long  
More varieties of equipment for kids with newer equipment  
More toys for children  
More swimming pools  
More picnic tables or benches for sitting  
More overall play area multipurpose area  
More children oriented  
More basketball courts  
More activity areas  
Maintenance nothing in a lot of the spaces like tables  
Lights for more safety. And doggie bags to encourage people to pick up after their dogs. Have more  
consideration for other people using the park.  
Lighting and toilet facilities  
Lighted playing facilities for youth sports , multiple use fields , fields trails and playgrounds are not all  
integrated together  
Less stuff  
Lack of maintenance in regard to dogs  
It's not that the restroom facilities are so bad, it's that they're trashed usually.  
I think it would be really cool - having a fireside chat with a brochure that says the Sunday of every month  
we have a geologist or a birder so we become more knowledgeable about our natural surroundings. I  
worked in glacier and we had those all the time  
I'd like to see a water park, a white water deal if they ever get that dam out. I'd like to see more skate  
board facilities.  
Has a child who has played state all-star baseball and there is only one women's stall that has a door  
and there is no paper and no towels, located in Clawson complex where little griz and all little league  
baseball games are played.  
Handicapped restrooms  
Greenough park had a slide and jungle gym and were taken out. If a park is supposed to have play  
equipment it should be maintained in working order.  
Franklin park needs equipment for smaller children  
Fountains/wading pools  
Feel like they can be more child friendly  
Enforcement of some of the laws, like there is people that paint gun and folfers bicycles  
Doesn't have time works all the time  
Children playground stuff  
Children's parks are dirty and worn down all the parks are filthy  
Certain sport activities, more basketball and tennis courts and volley ball  
Booths & equipment sheds

Bland

Better equipment for children & better restrooms

Bathrooms x drinking fountains maybe

Bathrooms and the maintenance well not maintenance but people should pick up their junk

Away from busy streets

A community center for arts and entertainment. Better aquatic facilities

## **OTHER PARK FACILITIES**

Young adult activity centers Ages 18 to 23

With Missoula growing I hope they keep some areas opened

We need an enclosed ice skating rink. It's the highest thing on my list.

Velladrome

Use area by McCormick park to build a culture center devoted to museums, science exploratory museum mindful development on the western hills out of town.

This is Montana, if you want to do something, go out and do it.

Things to keep kids active

Things for teenagers to do

There should be more public chess tables

Stuff for young people to do that is free

Standing wave for kayaking, more bike lanes on the roads

Something for indoor activities for elementary age children like the children's museum

Shakespeare in the park

Recreation for seniors including dances

Really need some dog areas

Race tracks for children

Race track or drag strip

Public shooting range, target ranges

Public meeting place open for public use

Place to fly planes

City wide arena so wouldn't have to rely on University for everything

Place for singles to meet

Pavilions for 50th anniversary parties for weddings, large gatherings that can be rented

Parks in general Pave more trails, more playground facilities more recreations less bums hanging out

Outdoor movie theater

Outdoor learning centers for school children, with college also

Our parks have the facilities in general but maintenance is really lacking. Unless you belong to the Y there's no gym to play basketball in in winter unless you're lucky enough to be in high school sports. And there's no pool unless you belong to a health club

Not enough park benches. And parking

Not enough horseshoe pits

Not enough for teens to do

Need nightlights for basketball courts

Need more indoor arena for horse people

Need more garbage receptacles.

Not enough natural areas in urban parks.

Need more emphasis on skate parks.

Need a multipurpose building that would draw conventions to Missoula

Need a huge park along the river

Need more indoor tennis courts

Multi use convention centers...ice skating

Much better network of commuter trails for people biking to work, more dedicated trails for both mechanized users and walkers, better connection between forest trails and city trails- ie a better connection to Pattee Canyon

More youth centers

More walking trails

More to offer junior high and high school age

More things for younger people

More things along the lines of the children's museum

More thing for children too do

More tennis courts

More skating parks and soccer fields

More space for skate boarding.

Trail system still doesn't seem to be completely linked up. I can't even imagine trying to go south of the river on a trail system.

More skate parks

More public art

More pools out toward Frenchtown

More places where a field could be frozen for kids to ice skate, like McCormick.

More peaceful reading and wildlife areas

More outdoor swimming pools

More neighborhood accessories for South hills area.

More mtn. Bike trails x more dog trails

More moto-cross trails and parks

More maintained trails

More land to build more facilities for all especially children

More indoor gyms free

More indoor facilities x swimming for public

More indoor

More ice skating rinks.

More horse shoe pits

More handicap accessibility pertaining to pools, rivers, parks, pavement, campgrounds

More green space and natural trails

More gathering places

More gardens

More for young people to give them other options than drugs and such

More for older folks

More focus on Missoula children's museum

More covered activities places in all the parks

More campgrounds

More biking trails, more dog specific trails not enough swimming facilities

More benches a

More batting cages

More and better restrooms

Miniature golf course

Limited times along the rivers where dog can roam without leases when not many people around.

Lights at the softball field Covered areas for children to play

Lighted tennis courts x more Frisbee golf courses

Kids with disabilities should have ways of participating in the parks, more opportunities for the people living in busy areas, like the elderly on reserve

Kids indoor activities

Kids' stuff (need something to do)

Interconnected trail systems and separate bike trails, bridge over the river by Kim Williams

Indoor swimming pools

Indoor swimming pool would be good, a public one would be cool if msla had a hockey team  
Indoor soccer field  
Indoor pools important  
Indoor playground for small people in winter  
Indoor play areas for young children  
Indoor facilities for like soccer X  
Imax amusement park area  
Ice skating rinks indoor and indoor swimming  
Ice rink  
I don't think there's enough picnic shelters. Where I grew up every park had one. There was an abundance of them.  
Folf course in town  
Facility for kids 14-21 something not sure of what  
Equestrian trails  
Entertainment during the winter months for children  
Developed velodrome, bicycle racing facility  
Convention center, arts performance center,  
Continue trail after crosses river  
Climbing walls  
Climbing walls  
Civic center  
Better trail markings where your going and which one your on  
Better maintenance and landscaping  
Barbecues in picnic areas.  
Another dog park and more rest areas on trails and at the dog park need less expensive golf courses for beginners  
All year ice skating rink  
All purpose community center/events center for the [public  
A whole common area.  
A Major multipurpose area

### **OTHER ADULT ACTIVITIES**

Wading pools  
Used to have an outdoor archery target at the fort. Not maintained and needs to be there.  
Tubing in the Clark Fork  
The homeless people with children around, young teenagers around caras park  
The city does the best they can. It's mushrooming.  
Taking pictures  
Taking my dog to the bark park.  
Swimming dogs in the river  
Swimming  
Swimming  
She don't use the parks or trails cause she works all the time and has no time to but what she has seen from a glance they look fine  
Seem they look good from a distance  
See the leash laws enforced more in parks  
See the "Brennans wave" come in and the white water rodeo park come in  
Rock climbing  
Practice music there  
Plays ultimate Frisbee 3xper week  
Out to lunch in Caras park  
Off leash parks for dogs  
Observe outdoor things

Not really any nice grassy picnic areas by the river.  
No i think we need an inside arena to keep kids active in the winter time, like baseball field,  
No don't have to worry about crime in the parks like in the big cities  
Need to consolidate parks so there are less but better maintained  
Need more fishing access in town , a launch for boats and rafts, x rid parks of panhandlers  
Mountain biking and birding and plant identification  
More people moving in, hope continue to set aside areas for public parks wildlife issue feeding  
More fishing access for the family  
More covered area,  
Like more trash receptacles, more mutt mitts to pick up dogs duties x  
Kept up pretty good and nice  
Just walking for good health and nature  
Just hung out by the river  
Just a place to relax  
Jogging  
Inner-tubing  
I take the kids to the park.  
Horseback riding  
Horse shoes  
Frisbee  
Drum class  
Concerts in Bonner park and Caras park for their events  
Concern with illegal/questionable activity with west side park by lowell school. Expand on bike trails to  
reduce pollution and more exercise  
Birthday party, treasure hunts  
Birthday parties  
Bird watching, animal watching, wildlife  
Bird watched, walking around

## **OTHER CHILDREN ACTIVITIES**

Ultimate Frisbee  
Swinging  
Slides  
Playgrounds t-ball  
Playgrounds pools wading pools  
Playgrounds  
Playground and walking trails  
Playground  
Playground  
Playground  
Playground  
Playground  
Play  
Parks and rec program (teaches kids how to play games)  
Kids in action  
Playgrounds  
Kids in action  
Kids in action  
Folf  
Dance  
Arts

# **APPENDIX 3: QUESTIONNAIRE**

**INTRODUCTION**

Hello, my name is \_\_\_\_\_ and I am calling from The University of Montana in Missoula, Montana. We are doing an important survey about the use and condition of Missoula Area Parks.

First, though, I need to be sure I have dialed the right number. Is this 999-9999?

In order to do the survey, I have to follow a specific selection procedure. For this survey only persons aged 18 and older are to be interviewed. So of all the people living in your household, including yourself, how many are 18 years of age and older? ENTER NUMBER

And how many of these persons are female? ENTER NUMBER

According to the selection procedure, I need to interview \_\_\_\_\_. Is he/she available? Or is that you?

IF R NOT AVAILABLE, MAKE APPOINTMENT

READ THE FOLLOWING CONFIDENTIALITY STATEMENT TO ALL RESPONDENTS

Before we start, I want to assure you that this interview is completely confidential and voluntary. If we should come to a question you don't want to answer; just let me know and we'll go on to the next question. This interview will take about 10 minutes.

AGE. What was your age on your last birthday?  
**(WE NEED TO ASK THIS QUESTION HERE IRB)**

\_\_\_\_\_ years

YRSM SLA. How many years have you lived in the Missoula valley area?

\_\_\_\_\_ years

HHSIZE. Including yourself, how many people are currently living in this household? Be sure to count any infants living there.

*IF MORE THAN 1:* HHCHD18. How many are under the age of 18?

— —

HHCLD6: How many are under the age of 6?

— —

SATIS1: How satisfied are you with the Urban Area trail system, such as Kim Williams. On a scale from 1 to 5, where one is not at all satisfied and five is very satisfied, how satisfied are you with the Urban Trail system?

- 1 NOT AT ALL SATISFIED
- 2
- 3
- 4
- 5 VERY SATISFIED
- 8 DK
- 9 REFUSED

SATIS2: How satisfied are you with the level of maintenance in the area's Parks? On a scale from 1 to 5, where one is not at all satisfied and five is very satisfied, how satisfied are you with the level of maintenance in the area's parks?

- 1 NOT AT ALL SATISFIED
- 2
- 3
- 4
- 5 VERY SATISFIED
- 8 DK
- 9 REFUSED

SATIS3: How satisfied are you with the overall amount, quality and distribution of conservation lands, such Mount Jumbo? On a scale from 1 to 5, where one is not at all satisfied and five is very satisfied, how satisfied are you with Missoula's conservation lands?

- 1 NOT AT ALL SATISFIED
- 2
